Before the coming of steam, James Shoolbred had established his modest shop in George the Fourth's, Tottenham Court Road.

To-day the House of Shoolbred still stands, a huge storehouse, wider-reaching and deeper in resource for ten decades of growth—three generations of service.

Here are examples of what the Shoolbred Wine Department can offer you. Choice vintages, brought to ripeness and maturity in our 50-year old cellars. So too with Cigars; the few examples quoted represent but a minute portion of the large stocks of Cigars always maintained.

A.O. 153. Unemployment Insurance Acts—Application to
1922. the Army Reserve and Territorial Army during

93

3297

training.—1. With reference to paragraph 8 of Army Order 343 of 1920, it is notified that in future men of the Army Reserve and Territorial Army will, if they were normally, before training, employed persons within the meaning of the Acts, continue to be insured during training.

Under the old system insurance was only continued during training provided a man was actually employed in an insurable occupation immediately before the period of training commenced. That is to say, if he was then actually unemployed, his insurance was not continued during training, as contributions would not be paid prior to training owing to his being unemployed.

Under the new system, even if a man is unemployed immediately prior to training, provided he was, previous to the period of unemployment, working in an insurable occupation and has had an unemployment book issued to him, contributions will be paid on his behalf during training.

Thus the proof of a man's normal employment in an insurable occupation will be the fact that he has had an unemployment book issued to him.

2. Each man on joining for training should, therefore, be asked by the O.C. company, &c., for his unemployment book. If he states that he has never possessed such a book no contributions will be payable. If he states that he has left the book with his employer he should be ordered to obtain it from the employer. If he states that he has left it at an Employment Exchange he should be asked to produce the official receipt (U.I. 40).

If the man who has left his book with his employer fails to obtain it within a period of 7 days, application should be made to the nearest Employment Exchange or Branch Employment Office of the Ministry of Labour for an Emergency Book. The Emergency Book will be issued upon the O.C. company, &c., supplying the officer of the Ministry of Labour with a list showing the man's name in full, home address and civil occupation. The

man's name, address and civil occupation should be written upon the Emergency Book, which should thereupon be stamped in the usual way. The Emergency Book should be returned to the man at the end of the training as if it were a regular unemployment book: the instruction to the contrary appearing upon the Emergency Book may be disregarded. In the case of a man who has left his book at an Employment Exchange and produces an official receipt, that document should be sent to the Exchange named upon it, whereupon the Exchange will forward the book to the O.C. company, &c. The man who has left his book at the Exchange and cannot produce a receipt should be dealt with in the same way as the man who has left his book with the employer and fails to produce it, *i.e.*, an Emergency Card must be applied for and used.

3. If and when the book is produced, contributions at the following rates will be payable during the period of training :—

In respect of men aged 18 years and over...	...	...	...	s.	d.	} a week or part of a week.
In respect of youths aged 16 and under 18 years ...	...	...	...	1	7	
				0	9½	

If the training commences in the middle of a week in respect of which a contribution has already been paid, no further contribution will be payable for that week. Contributions are to be paid by means of Unemployment Insurance stamps to be affixed to the Unemployment Book. When affixed the stamps should be cancelled in ink by writing the date across them.

4. A man who, while being normally employed in an insured occupation, possesses a certificate of exemption from liability to pay unemployment insurance contributions, will hold an exempt person's book. Contributions payable in respect of exempt persons by means of stamps to be affixed to the exempt person's book will be at the rate of 10*d.*, and not 1*s.* 7*d.*, in the case of men of 18 years and over ; 5*d.*, and not 9½*d.*, in the case of youths of 16 and under 18 years.

5. The company officer will be responsible for seeing that all necessary unemployment insurance contributions are in fact paid and unemployment books duly stamped accordingly before the man leaves on termination of training.

Territorial Army — Bounties.—1. The bounties A.O. 160.
payable to warrant officers, N.C.Os. and men who enlist 1922.
or extend their engagements in the Territorial Army
after 2nd March, 1922, will be at the following rates
and subject to the following conditions, in *substitution*
for those laid down in Territorial Army Regulations,
paragraph 580 A-F, as promulgated by Army Order 280
of 1921.

Army Orders.—April, 1922.

A.O. 160 2. A *trained man* will be entitled to a bounty of
1922 £2 10s. for each training year in which he *either—*
continued.

- (i) Performs 20 drills and attends annual camp for 15 days ; *or*
- (ii) Performs 30 drills and attends annual camp for 8 days.

3. A *recruit* will be entitled to a bounty of £2 if he *either—*

- (i) Performs the number of drills prescribed for a recruit in his arm of service, and attends camp for 15 days ; *or*
- (ii) Performs 10 drills in excess of the number of drills prescribed for a recruit in his arm of service, and attends annual camp for 8 days.

4. In addition to the bounties under paragraphs 2 and 3, a bounty of 10s. will be paid to each warrant officer, N.C.O. or man in a unit in which a musketry qualification is required, if he has fired the prescribed course and qualified in the standard test. In arms in which a musketry qualification is not required, the same bounty will be paid to those who satisfy such alternative conditions of efficiency as may be laid down.

5. Time spent with advance or rear parties will not count towards the period of attendance in camp required under paragraph 2 or 3.

6. If in any training year a warrant officer, N.C.O. or man has attended for not less than 15 days at a voluntary course of instruction applicable to the arm or branch of service to which he belongs, and qualified at the course, the G.O.C.-in-C. may authorize such attendance to count, for the purpose of bounty under paragraph 2 or 3, as equivalent to 15 days' attendance at annual camp.

7. The bounty under paragraph 2 or 3 will be payable to a warrant officer, N.C.O. or man, otherwise eligible, who has commenced his annual training in camp and signified his intention of remaining for the full period required under paragraph 2 or 3, but, before completion of the period, is admitted to hospital or sent home in consequence of disability not brought about by his own action. Payment of the bounty in such cases will be supported by a certificate that the man had signified his intention of remaining in camp for the required period

8. If a warrant officer, N.C.O. or man who has A.O. 160
performed the obligatory number of drills for his arm 1922
of service is prevented by sickness duly certified from *continued.*
attending camp for the period required to enable him to
earn bounty under paragraph 2 or 3, he will receive a
bounty calculated at the rate of 6d. a drill up to the
number in paragraph 2 (ii) and 3 (ii), as a maximum for
a trained man and a recruit respectively.

9. A recruit enlisted after the annual training in
camp of his unit, but before the 1st November following,
will not be eligible for the trained man's bounty in the
succeeding year unless he has completed his preliminary
training in addition to the training laid down for his
second year of service.

10. The total bounty will ordinarily be issued in a
single payment at the end of camp or of the training
year, but the O.C. a unit may authorize the bounty for
musketry (or the approved alternative) to be paid as
soon as it has been earned in any case where he considers
this course desirable.

11. Warrant officers, N.C.Os. and men who were
serving in the Territorial Army on the 2nd March, 1922,
will be dealt with for bounty purposes under Territorial
Army Regulations, paragraph 580 A-F, during the
continuance of their then current engagements (includ-
ing re-engagements signed by them not later than the
2nd March, 1922), unless they have made a written
election not later than 31st May, 1922, to be dealt with
wholly under the conditions in this Army Order.

12. On the expiration of the engagements (or re-
engagements) current on 2nd March, 1922, all warrant
officers, N.C.Os. and men will be dealt with wholly under
this Army Order for purposes of bounty ; such men, on
re-engagement or re-enlistment, will not be entitled to
earn more than a total bounty of £3 for the whole
training year in which they re-engage or re-enlist, except
in cases where, prior to the expiration of their engage-
ments, they had already earned bounty in excess of that
amount under the old conditions. (See, however, para-
graph 14 for special conditions applicable to the present
year only.)

13. Warrant officers, N.C.Os. and men electing to be
dealt with under the old bounty conditions in accordance
with the provisions of paragraph 11, may also be

A.O. 160 allowed to count attendance at a voluntary course of
1922 instruction as the equivalent of camp, under the condi-
continued. tions of paragraph 6.

1922.

Officers in attendance on His Majesty the King or other Royal Personages will not salute when the National Anthem is played for a royal salute.

In the case of officers of headquarters staff, after the royal salute the G.O.C. alone is to be regarded as in attendance, and will take up his position in rear of His Majesty.

The only exception to the above is on the occasion of the trooping of the colour on the King's Birthday. When the National Anthem is played on the presentation of arms to the colour, all officers, including those in attendance on His Majesty, will salute.

1777B. All ranks in military uniform not on parade will stand at attention when the National Anthem is played during the *feu de joie* and for the royal salute, but officers, warrant officers and N.C.Os. will salute only when the royal salute is given.

1777C. When the National Anthem is played on occasions when there is no parade, or on occasions of a non-military nature, all ranks in military uniform will stand at attention ; officers, warrant officers and N.C.Os. if wearing headdress saluting.

APPENDIX XXVIII.

REGULATIONS REGARDING LEVÉES.

A.O. 161.
1922.

[NOTE.—*These regulations are intended for officers on the Active or Retired Lists of the Army except those on the Indian and Colonial Establishments.*]

1. Officers may be presented only on the following occasions :—

- (a) On first appointment.
- (b) On attaining field rank, and each successive rank afterwards.
- (c) On appointment to the command of a battalion or to the Colonelcy of a regiment.
- (d) On appointment to the Army Council or to the Staff of the Army.
- (e) On appointment as Aide-de-Camp General or as Aide-de-Camp to the Sovereign or to any member of the Royal Family.
- (f) On appointment to any British Order of Knighthood in a degree not below that of Commander or Companion, or on subsequent promotion in the Order, provided that they have not already been vested personally by the King.
- (g) On return from active service in the field or from special service abroad.

2. In all the above cases presentations will be made by the Secretary of State for War unless otherwise desired by applicants. If the presentation is to be made by a gentleman other than the Secretary of State for War, the application should be made to the Comptroller, Ceremonial Department, by the Presenter as being personally responsible for the gentleman he wishes to present. He must also personally attend the Levée and must have been previously presented himself. Should the Secretary of State for War, for any reason, be unable to be present, he will make arrangements with another Cabinet Minister to make the presentations on his behalf and inform the Lord Chamberlain accordingly, at least 3 days before the date of the Levée.

3. When a number of officers of a regiment attend a Levée on their return with their regiment from a tour of foreign service, they are expected to do so collectively, and to pass together in succession. No presentation in

this case is necessary, unless they come under any of the categories referred to in paragraph 1 of these rules. In applying for Levée Cards in such cases it should be stated which of the officers require to be presented, and which not, so that the appropriate cards may be issued in each case. (See paragraph 5.)

A.O.161
1922
continued.

4. At the first Levée of the year the senior Colonels Commandant of the Royal Artillery and the Royal Engineers are required to attend and present the "States" of their regiment and corps, respectively. In the event of either of them being unable to be present at this Levée owing to ill-health, another Colonel Commandant is nominated by the Adjutant-General to undertake the duty and the names and addresses are reported to the Ceremonial Department, St. James's Palace, who issue the cards to these officers.

5. There are two kinds of Levée Cards—

- (a) Presentation Cards, and
- (b) Attendance Cards.

The former are for the use of all officers who are being presented. The latter are for the use of those who do not require to be presented under paragraph 1, but who wish to attend the Levée for other reasons. Either kind of card suffices should the officer desire to make presentations at the same time.

6. Apart from the occasions mentioned in paragraph 1, on which an officer may be presented, other attendances are not allowed oftener than once in 3 years unless in special circumstances or unless he has presentations to make.

This paragraph is not intended to apply to officers of the Household Cavalry or Brigade of Guards.

7. A notification of forthcoming Levées is published in the *London Gazette* on receipt of which G.O.C.-in-C. will make an announcement in routine orders for the information of officers serving in the Command.

8. The arrangements for the attendance of officers at Levées are made by the Secretary, The War Office, in conjunction with the Comptroller, Ceremonial Department, except in the case of officers of the Household Cavalry and the Brigade of Guards.

9. Applications from, or on behalf of, Army officers (other than those of the Household Troops) who desire to be present at a Levée will be addressed to the Secretary (C. 2, Investitures), The War Office, Whitehall, London, S.W. 1, and should reach the War Office

Army Orders.—April, 1922.

1922 Levée.
continued.

All Levée Cards other than those mentioned in paragraph 4 will be issued direct to the applicants by the Secretary, The War Office (C. 2, Investitures).

10. Applications should contain the following information in respect of every person who is to attend the Levée :—

- (a) Army rank, and unit or appointment.
- (b) Title (if any), and name, including the initials of any orders or decorations awarded.

(Note.—Only one Christian name is permitted to appear on a Levée Card ; the remainder of the names, not exceeding two, being represented by initials if desired.)

- (c) Whether a “ Presentation Card ” or “ Attendance Card ” is required.
- (d) In addition to the foregoing information—

(1) Application for “ Presentation Card ” should show in each case—

- (i) The occasion on which the applicant wishes to be presented.
- (ii) The name of the gentleman (if other than the Secretary of State for War) who will be at the Levée and will present the applicant. If the presentation is to be made by a gentleman other than the Secretary of State for War, the request for permission to make it should be addressed to the Comptroller, Ceremonial Department, by the Presenter as being personally responsible for the officer he wishes to present.
- (iii) Whether it is desired to make a presentation or presentations, giving particulars.

(2) Applications for “ Attendance Cards ” should show in each case—

- (i) The date and occasion of the last attendance at a Levée.
- (ii) Whether it is desired to make a presentation or presentations, giving particulars.

stitute— 292

A.O. 164. 80. The local purchase of ordnance stores referred to
1922. in the following paragraphs will be dealt with by the
 C.O.O. and all contracts will be entered into and
 important purchases made under the orders of the
 superior authority, the procedure laid down in Appendix
 XXI being followed for purchases or repairs between
 the values of £10* and £50*.

For further instructions regarding contracts, *see*
 Regulations for Supply, Transport and Barrack
 Services

81. If the C.O.O. of a central ordnance depot finds it
 necessary to purchase stores to meet indents from units,
 he will first consider the advisability of authorizing
 purchase by the C.O.O. of the area in which the unit is
 stationed. If, owing to saving in cost of transport, it
 is considered that this is the more economical method,
 he will pass an issue order and instruct the C.O.O.
 of the area accordingly; stores so purchased will be
 accounted for by a command ordnance depot and
 vouchered to the unit concerned.

82. Expenditure on local purchases of stores may be
 incurred as follows:—

I. C.O.Os. are authorized to purchase, in urgent cases
 when time does not admit of compliance with para-
 graph 480, stores required by units and allowed by
 regulations, but not available locally, up to a value of
 £10* on any one description of article.

In these cases the procedure laid down in Appendix
 XXI need not be followed, but the C.O.O. will adopt
 such action as he may consider expedient to effect
 purchases on the most economical terms.

II. When approval has been given by A.D.O.S.
 Provision, C.O.Os. are authorized to arrange for local
 purchase—

(a) *At home stations.*—With the approval of the
 superior authority up to £50* on any one
 description of article.

When the proposed expenditure on any one
 description of article exceeds £50,* application
 will be made, on A.F. G 1041, to the War Office
 for authority to purchase. A list will accompany
 the Army Form giving the names and addresses
 of the firms invited to tender and the rates
 quoted by each. A recommendation will also

be made as to the tender or tenders it is proposed A.O. 164
to accept. 1922

In cases of urgency, purchase may be effected up to a limit of £100 on any one description of article without previous reference to the War Office. *continued.*

- (b) *At stations abroad.*—The superior authority may authorize purchase of stores up to any amount, provided the rates are remunerative as compared with home prices, after allowing for cost of freight and handling.

83 Expenditure on repairs may be incurred as follows :—

I. C.O.Os. are authorized to purchase for army ordnance workshop services up to the value of £10* on any one service, or with the approval of the superior authority up to £50* as at II (a) of paragraph 82.

These limits will not apply when local provision is expressly authorized by List of Changes or other War Office authority.

II. C.O.Os. are authorized to incur expenditure up to £10* on any one service, or with the approval of superior authority up to £50,* where owing to lack of facilities or pressure of work in army ordnance workshops it is necessary to have repairs carried out by the trade.

If the estimated cost of the service exceeds £50*, prior War Office authority must be obtained.

84. The laying of floor coverings of approved patterns, supplied at the public expense, for messes, quarters or storehouses, when approved, is an army ordnance service.

The cost, if any, of carrying out this service should be charged to Vote 8, Local Purchases.

85. A statement will be rendered to the A.D.O.S. Provision (Woolwich), in triplicate on the 5th of each month, detailing all moneys expended on local purchases or repairs carried out by the trade during the preceding month. Such purchases or repairs costing more than £50* for any one article or service will be shown in detail, even though prior War Office sanction has been obtained. Purchases and expenditure on repairs of and below £50* may be consolidated in the return, but they should be classified under Vote 8 and Vote 9 (sub-heads A, B and C).

GEORGE R.I.

100 Gen. No. 7210	WHEREAS reductions are being made in the establishments of Our Army rendering it necessary to dispense with the services of a number of officers serving on permanent regular commissions ;	A.O. 179. 1922.

SCHEDULE.

I. RETIRED PAY.

1. This portion of the Schedule refers to officers who are assessable for retired pay either—

- (a) As having, on date of retirement, 15 or more years' service reckoning towards retirement under Article 540, Pay Warrant, 1914 ; or,
- (b) As having, by 31st August, 1921, 15 or more years' total service to reckon for retired pay under Article 572A, Pay Warrant, 1914, as amended by subsequent Warrants (subject to paragraph 9 below).

Such officers (including officers for whom voluntary retirement on retired pay may not be permissible at 15 years' service) will be awarded retired pay at the rates appropriate on the normal scale applicable to their service and rank, together with additions, called "compensation elements," according to rank as follows :—

Rank.	Compensation element.	
	£	
Subaltern	50 a year	} Subject to paragraph 5.
Captain	60 "	
Major (or other officer whose rank element of retired pay is limited to that of major)	75 "	

2. A substantive lieutenant-colonel holding a lieutenant-colonel's appointment for a definite term of command displaced from his command on reduction of establishment before the completion of 4 years from the date on which he was gazetted to his command may either—

- (a) Remain on the full pay, including command pay, of his rank until he has completed the 4 years, counting such time as service in the rank for the purpose of reckoning retired pay. On completion of the 4 years he will be placed on half-pay equal to full pay, for 6 months, followed by half pay at the ordinary rate (Table XV, Army Order 324 of 1919) ; or,
- (b) Be retired forthwith on the rate of retired pay he would have earned had he completed the 4 years.

A lieutenant-colonel electing to remain on full pay will be held available for any employment suitable to

his rank, and in the event of his refusing to accept such employment, he will be placed on half-pay under A.O. 179
Article 308, Pay Warrant, 1914, and will not be eligible 1922
for half-pay equal to full pay for 6 months. *continued.*

3. A substantive lieutenant-colonel (not coming within the provisions of paragraph 2) who would normally serve on full pay to the age limit of his rank, may, if retired on reduction of establishment, be granted, in addition to the retired pay he has earned by rank and actual service, a compensation element of £100 a year (subject to paragraph 5). In the event of a lieutenant-colonel being retired under this paragraph with less than 1 year reckoning towards lieutenant-colonel's rank element of retired pay, his rank element will be assessed as though he had completed 1 such year and the compensation element will be added thereto.

4. An officer (not on the list of a regiment or corps) holding a colonel's (or higher) appointment and displaced therefrom by reduction of the post, may either—

- (a) Retire at once with the retired pay he would have earned had he continued in the appointment for the normal term, or up to the normal age limit of his rank, whichever date is earlier; or,
- (b) Be placed on half-pay, reckoning service towards retirement as under (a).

An officer electing alternative (b) may retire from the half-pay list at any time, on the retired pay he would have been awarded under alternative (a).

5. An officer retired with a compensation element of retired pay under paragraph 1 or 3, if he is within 2 years of the normal age limit of his rank, will have his compensation element proportionately reduced. Subject to this condition, a compensation element may be awarded in addition to normal maximum rates of retired pay, if already earned.

6. An officer whose retired pay includes a compensation element will be at liberty to commute the compensation element, in whole or in part, whether he is under or over the age of 40 years.

In other respects the compensation element will be regarded as an integral portion of the officer's retired pay, and it will be subject to variation, in accordance with the cost of living, within the same limits and at the same dates as the normal retired pay (paragraph 1, General Conditions, Army Order 324 of 1919).

Army Orders.—May, 1922.

Second Lieutenant	£ 600	} Together with an addition of £100 for each year's service.

8. An officer with 13 or 14 years' service reckoning towards retirement, for whom voluntary retirement on completion of 15 years' service would ordinarily be permissible, may elect to be placed on half pay under Article 308, Pay Warrant, 1914 (up to 2 years' service while on the half pay list reckoning towards retirement under Article 540 (j), Pay Warrant 1914), and subsequently retire on the ordinary rate of retired pay appropriate to his rank and service, in lieu of being immediately retired with gratuity on the scale in paragraph 7.

9. An officer commissioned from the ranks who is eligible to retire voluntarily with a gratuity (whether as an alternative to retired pay or not) under Article 572A, Pay Warrant, 1914, as amended by subsequent Warrants, may, on retirement, elect to receive either—

- (a) Such gratuity *plus* basic gratuity under paragraph 7 ; or,

Unemployment Insurance Acts, 1920-1922.
Application to Soldiers.—1. In future, when a soldier is discharged or transferred to the Reserve, Form U.I.A. 3/X.S. (application for unemployment book) will be completed by Os.C. units in respect only of those soldiers who are eligible under paragraphs 5 and 6 below for the credit of contributions under Section 41 of the

93
3182

Unemployment Insurance Act, 1920, and not (as laid down in paragraph 6 of Army Order 343 of 1920, as amended by Army Order 395 of 1920), in respect of all soldiers discharged or transferred. A.O. 195
1922
continued,

2. In other respects the present practice will not be altered, but in order that Os.C. units, &c., may be fully aware of the conditions and procedure for the credit of contributions, it has been decided to collate the previous instructions regarding the application of the Unemployment Insurance Acts to soldiers, and Army Orders 343 and 395 of 1920, 200 of 1921 and 18 and 57 of 1922 are accordingly *cancelled*.

3. *Nature of provision made for soldiers.*—The Unemployment Insurance Act of 1920 extended the contributory scheme of unemployment insurance generally to all civilians falling within the National Health Insurance Scheme. While a soldier is serving with the colours his employment is continuous, and insurance against unemployment is therefore unnecessary, but after he is discharged or transferred to the Reserve, it will be necessary for him to be insured against unemployment like other civilians. In the absence of any special provision for soldiers he would be unable to draw any benefit for periods of unemployment until he had been engaged in an insured trade, and a specified number of contributions has been paid in respect of him, and then he would only be able to draw one week's benefit for every six contributions so paid. To meet this difficulty and to provide for unemployment occurring in the period immediately following discharge or transfer to the Reserve, arrangements have been made for all soldiers of the categories given in paragraph 5 below discharged or transferred to the Reserve after 31st July, 1920, except those excluded from the benefits of this paragraph under paragraph 6 below, to be credited on discharge or transfer to the Reserve with 90 contributions, payments being made from Army funds to the unemployment fund accordingly. No recovery will be made from the soldier's pay. The contributions so credited entitle the soldier to 15 weeks' benefit after discharge or transfer to the reserve. If he does not draw the whole of this benefit immediately after discharge or transfer to the reserve prior to obtaining employment, the balance can be drawn at a later date, whenever the usual conditions for the receipt of benefit are fulfilled. It is obviously to the soldier's advantage not to draw the whole of the 15 weeks' benefit immediately after discharge or transfer

Army Orders.—May, 1922.

A.O. 195 to the reserve, but to obtain employment as early as possible, and leave the balance of the 15 weeks' benefit available to provide for subsequent unemployment not covered by contributions paid in respect of him after discharge.

1922
continued.

4. *Amount of benefit.*—The amount of unemployment benefit is at present 15s. a week for a single man, and 20s. a week for a married man with an additional 1s. a week for each child.

5. *Classes of soldiers eligible.*—The provisions of this Army Order apply, subject to paragraph 6, to—

- (a) Soldiers of the Regular Forces belonging to units, the depots of which are situated in the United Kingdom ; and
- (b) European soldiers transferred, or appointed, from units the depots of which are situated in the United Kingdom, to serve with the following units, raised outside the United Kingdom :—

The Royal Malta Artillery.

The Malta Division, Royal Engineers (Militia).

The King's Own Malta Regiment of Militia.

The Hong Kong - Singapore Royal Garrison Artillery.

The Sierra Leone Company, Royal Garrison Artillery.

The Bermuda Militia Artillery.

The Bermuda Volunteer Rifle Corps.

The West India Regiment.

The West African Regiment.

The King's African Rifles.

The West African Frontier Force.

6. *Classes of soldiers excluded.*—No payment will be made by the Army Council to the unemployment fund in respect of, and no contributions will be credited to—

- (a) Soldiers whose discharge is carried out under the following sub-paragraphs of paragraph 392, King's Regulations, 1914 : (i), (ii), (iii), (v), (vi), (viii), (x), (xi), (xii), (xiii), (xiv), (xva), (xviii) and (xxvi).
- (b) Boys whose age on discharge is under 16 years.

7. *Procedure.*—(a) Soldiers whose discharge or transfer to the reserve is carried out at home.—The officer who authorizes the discharge under paragraph 392, King's Regulations, 1914, or the officer who authorizes transfer to the reserve, will arrange for Form U.I.A. 3/X.S. to be completed by the O.C. the man's unit in respect

of each eligible soldier, and signed by the soldier, as soon as it has been decided to carry out his discharge or transfer to the reserve. In the case of a soldier who is disqualified under paragraph 6 above from receiving the credit of contributions, the O.C. unit will so inform him at the time of discharge or transfer to the reserve. Special care will be taken to ensure that the address given on the form is a full postal address, and is the address to which the soldier desires that his unemployment book should be sent. This is important from the point of view both of the Ministry of Labour and of the soldier himself. In the event of the soldier being unable to give any definite address he should be asked to give the name of a post office to which his unemployment book may be sent *poste restante*, and where he will in due course apply for it. Attention is also drawn to the slip, U.I.A. 69, which accompanies the Form U.I.A. 3/X.S., and care should be taken to ensure that the man's signature is obtained in the space provided thereon for that purpose. This slip should be attached in each case to the relative Form U.I.A. 3/X.S. It is most important that the particulars on the form should be entered in ink, not pencil. On the date of approval of discharge or transfer to the reserve, the completed form will be forwarded to the officer i/c records with the remainder of the soldier's documents and the officer i/c records will complete the certificate* on the form and forward the latter within twenty-four hours of receipt to the Assistant Accountant-General, Finance Department, Ministry of Labour, Kew, Surrey. In the event of no Form U.I.A. 3/X.S. being received in the case of a soldier who is eligible for the credit of contributions, the officer i/c records will at once call upon the O.C. unit to furnish a form. It is essential that the forms should reach the Ministry of Labour without delay to enable an unemployment book to be issued to the soldier within one week of the date of discharge or transfer to the reserve.

(b) Soldiers whose discharge is carried out abroad.—No unemployment benefit can be drawn while the ex-soldier is still abroad, but the officer carrying out his discharge should instruct him, in the event of his returning to the United Kingdom, to apply to the officer i/c records for Form U.I.A. 3/X.S. The officer i/c records

* This certificate is to the effect that the man appears to come within the provisions of Section 41 of the Unemployment Insurance Act, 1921. The cause of discharge should be given by quoting the sub-paragraph of paragraph 392, King's Regulations, 1914, under which the man is discharged.

Army Orders.—May 1922.

A.O. 195 will complete the form and will have it signed by the
1922 applicant (the necessary information being obtained
continued. from the man and his documents), and will then proceed
 as in the case of a soldier discharged at home:

A.O. 197. Retrospective Grant of Tradesmen's Rates of Pay 30
1922. to Soldiers reclassified on Issue of Standard Trade Gen. No.
 Tests.—1. Under the terms of paragraph 1 of Section II 7506
 of the Army Council's Instructions on Army Order
 325 of 1919, a soldier who, on issue of the standard
 test for his trade, qualifies for a class higher than that

in which he was temporarily classified under that paragraph, is eligible for the higher rate of pay with retrospective effect as from 1st July, 1919. This retrospective grading was provided for on the assumption that it would be possible for all standard tests to be issued at an early date, and that, consequently, the standard of trade proficiency shown by individual soldiers on testing would be materially the same as on 1st July, 1919.

A.O. 197

continued.

2. In view of the unavoidable delay which has occurred since the publication of Army Order 325 of 1919 in the issue of tests for certain trades, and, in consequence, the advancement of trade proficiency, in the case of many soldiers, beyond the standard reached by them on 1st July, 1919, the following amendment will be made to the last line of paragraph 1 (a) of Section II of the above Instruction :—

After "held" add—

"provided that the Command Testing Board or other testing authority is satisfied that the soldier being reclassified has not had definite opportunities provided for him which have increased his trade skill in the meantime, such as undergoing classes of instruction, or regular employment at his trade, &c. In such a case the increase of pay will date only from the end of such class of instruction or other opportunity, and in their recommendation for increased pay the testing authority will state their opinion as to the date from which such increase should commence".

Use of Troop Horses for Polo.—1. At the discretion A.O. 202.
1922.
 of G.Os.C.-in-C., officers may be permitted to use troop
 horses for polo, under the conditions stated below, and
 provided that, in the opinion of divisional and brigade
 commanders, such use will in no way interfere with the
 military work of the horses. Use for polo will not, in any
 circumstances, be considered a reason for increasing the
 authorized establishment of animals required for strictly
 military purposes.

2. In the event of permission being granted, C.Os. will
 be held responsible that the following conditions are
 rigidly observed :—

- (a) Troop horses used for polo must always be avail-
 able when required for military purposes.
- (b) The use of troop horses for polo will be confined
 to the officers of the unit to which the horses
 belong, and no horse not classified as a “ rider ”
 or “ pack ” will be so used.
- (c) No troop horse will be taken away from the
 station at which the unit is quartered, or be
 played in any first-class tournament.
- (d) No troop horse will be used for polo until it is
 6 years old, and has been certified by the
 veterinary officer as physically fit for the game
 and passed by the C.O. as sufficiently trained.
- (e) Not more than two troop horses will be played on
 any one day by any one officer, and no troop
 horse will be played on more than three days in
 any one week or in more than two chukkers on
 any one day.

3. The charge for hire will be £4 for the season for
 each horse to be used for polo. The payments will be
 made by the unit, not by individual officers, and will be due
 whether the horses are used throughout the whole
 season or not. Payment will be made direct to the
 command cashier in two equal instalments, the first at
 the commencement of the polo season and the second in

Army Orders.—May, 1922.

A.O. 202 the middle of the season. A list, certified by the C.O.,

 will countersign this list as evidence that all the animals
 have been passed by him as physically fit. Separate lists
 will be forwarded and payment made for additional
 animals taken into use after the general payment.

A copy of the list will be forwarded at the same time
 direct to the command paymaster.

4. The closest veterinary supervision will be main-
 tained in the case of all troop horses used for polo, and
 the C.O. will afford every facility to the veterinary
 officer in carrying out this duty. Careful reports and
 statistics, showing the effect of the game on each horse
 played will be compiled by the veterinary officer in
 charge of the unit and forwarded to the Secretary, The
 War Office, at the close of the present polo season, when
 the effect of the scheme, which at present is experimental,
 will be reviewed.

A.O. 203. Territorial Army—Provision and Maintenance
1922. of Motor-Cycles.—1. *Provision and upkeep of motor-

 motor-cyclists, within the numbers authorized by Pro-
 visional Peace Establishments, will provide and maintain
 their own motor-cycles, which should conform to the

 entailed, and to cover the cost of wear and tear and all
 liability for damage (petrol and oil being supplied free
 from army stocks), an allowance of 5s. a day will be
 issued to the motor - cyclists under the following
 conditions :—

- (a) It will be granted during annual training in camp,
 and trainings during the year authorized by
 the General Officer Commanding - in - Chief
 concerned.
- (b) It will be in addition to any pay and allowances
 to which the motor-cyclist may be entitled by
 virtue of his rank or appointment.

 recruits' or annual drills.

Payment will not be made for days on which a

not occasioned by military service. 1922

3. *Inspection of motor-cycles.*—(a) On enlistment the motor-cyclists will be required, at their own expense, to submit their own motor-cycles for inspection by an officer deputed by the officer commanding unit, and to complete Army Form B 210A, which, when certified by the inspecting officer, will be filed with their attestations.

continued.

(b) A motor cyclist, on coming up for annual training, will be required to produce his motor-cycle in a serviceable condition to the satisfaction of his commanding officer. A motor cyclist who fails to do this may, in the absence of reasons considered valid by the General Officer Commanding-in-Chief concerned, be refused permission to train, and be liable to be discharged from the Territorial Army.

4. *Insurance on motor cycles.*—Motor-cyclists will be required to insure their machines at their own expense under a comprehensive policy to include accidental damage, loss by theft, fire, &c., and third party risks, whilst on duty.

5. *Officers.*—The allowance may also be paid, subject to the conditions in paragraphs 1, 2 and 4, to officers who bring their own motor-cycles to training in order to provide the number required by their units within the Provisional Peace Establishments. Such motor-cycles must be produced in serviceable condition to the satisfaction of the commanding officer and will be liable to inspection under paragraph 3 (a).

Standards of Professional Efficiency.

A.O. 234.
1922.

682. The general conditions of eligibility for proficiency pay are laid down in the Pay Warrant.

Proficiency pay.

The standards of professional and educational proficiency necessary for the issue of proficiency pay to a soldier, otherwise eligible, are that—

- he has at least one year's service with the colours, excluding service as a boy ;
- he is certified by his C.O. to be in all respects a thoroughly trained and efficient soldier. (This qualification will include a satisfactory physical standard, and special qualifications according to the arm or branch to which the soldier belongs.)
- he is in possession of a 2nd class certificate of education.

Grant. 683. All soldiers who are eligible for proficiency pay A.O. 234
will be classified by the C.O. on, or shortly before, 1st January and 1st July in each year; and the names of soldiers so classified as qualified for the grant will be published in Part II Orders. Proficiency pay will cease at the end of each period ending 30th June and 31st December, and will re-commence only from the date on which a soldier is shown in Part II Orders as having been re-classified as qualified for the grant. 1922
continued.

Soldiers becoming eligible for proficiency pay for the first time will be classified by their C.Os. as soon as possible, and the names of such men as, in their opinion, are in every way qualified for proficiency pay will be included in Part II Orders.

A C.O. will be held personally responsible for authorizing the grant of proficiency pay. It will be granted only in cases where the soldier shows energy and ability by becoming proficient in musketry, machine gunnery, signalling, range taking or gun laying, or by the acquisition of such other qualifications as may be required of a thoroughly trained soldier in the arm or branch to which he belongs.

With-
drawal 684. A C.O. may withdraw proficiency pay if, in his opinion, the soldier falls below the requisite standard, and may restore it if the soldier subsequently re-attains the standard.

Date of receipt or with-
drawal. The date of receipt or withdrawal will be that of the C.O's. certificate, as published in Part II Orders.

Transfers. 685. In the case of transfer from one unit to another where proficiency pay can be granted, the soldier will continue in receipt of any proficiency pay which he may be drawing at the time of transfer for a period of six months from the date of last certificate. A soldier will not be certified by his C.O. as qualified for proficiency pay until he has completed two months' service in his unit, but where proficiency pay has lapsed merely through transfer, the date of classification may be antedated so as to provide for the continuous issue of proficiency pay, provided that classification takes place within three months of joining the new unit.

Returns. 686. C.Os. will render a return to the G.O.C.-in-C., on A.F. W 5126, by 6th January and 6th July of each year, through the usual military channels, showing what percentage of the soldiers eligible for proficiency pay serving under their command were in receipt thereof on 1st January or 1st July immediately preceding. A summary in tabular form will be prepared for each

A.O. 235. “At the same time the medical officer will, in all cases
1922. (including sickness), complete A.F. B 117 (suitably
amended where the case is one of sickness) and forward
it immediately to the C.O. of the officer or soldier so
dealt with.”

1922. (including Section 3 as far as possible) as in para. 659
and forward it with a full report to the C.O. of the
officer or soldier concerned.”

3. *For* paragraph 659F *substitute*—

A.O. 235. 659F. If the medical officer certifies that the disability
1922. is of a trivial character, unlikely to cause permanent ill
effects, no court of inquiry need be held, unless con-
sidered necessary under sub-paras. (b), (c) and (d) of
para. 659G. Where no court of inquiry is held, A.F. B
117 will, in the case of an officer, be forwarded through
the prescribed channel to The Secretary, The War Office,
a copy being retained at command headquarters. In the
case of a soldier it will be forwarded to the officer i/c
records for custody with the original attestation after
the necessary entry, stating whether he was on duty and
whether he was to blame, has been made in the medical
history sheet (A.F. B 178).

4. *Insert* new paragraphs—

A.O. 235. 659G. In the following cases a court of inquiry will
1922. be assembled as soon as possible and, where practicable,
on the day on which the disability is reported :—

- (a) If the disability is fatal (unless an inquest is held) or is certified by the medical officer to be of a serious nature.
- (b) If, in the opinion of the C.O., doubt exists as to the cause of the disability.

- (c) If, in the opinion of the C.O., doubt exists as to whether the officer or soldier was on or off duty at the time he contracted the disability. A.O. 235
1922
continued.
- (d) In the case where a claim for compensation or pension arises or for any other reason it is desirable thoroughly to investigate the causes of the disability.

The court will investigate and report the circumstances as affecting the question whether the disability was contracted in and by the performance of military duty. The court should record such opinion as they are able to form on this point. At camp the court will consist of the C.O. or next senior officer and the medical officer of the unit, the adjutant, and an officer of the R.A.M.C. or R.A.M.C. (T.A.). When not at camp the court will consist of such of these officers, or their qualified representatives, as are available. The report of the findings of the court will be in addition to the report on A.F. B 117.

659H. When no evidence as to the circumstances attending the disability beyond that of the sick or injured officer or soldier is forthcoming, it should be so stated in the proceedings. The court will not give any opinion, but the C.O. of the officer or soldier will record his opinion on the evidence, stating whether the officer or soldier was on duty and whether he was to blame. The medical officer will, in the case of an officer, record his opinion in the proceedings as to the effect of the disability on the officer's service. In the case of a soldier, a record will be made in the medical history sheet (A.F. B 178) by the C.O. that a court of inquiry has been held and also as to whether the soldier was on duty and whether he was to blame. The medical history sheet will then be passed to the medical officer who will record his opinion as to the effect of the injury on the soldier's service.

659J. The proceedings of the court of inquiry in the case of an officer will be forwarded by the C.O. through the prescribed channel to The Secretary, The War Office, a copy being retained at command headquarters. In the case of a soldier where the disability proved fatal, and in the case of sickness, as provided in para. 660, the proceedings will similarly be forwarded to the War Office. In other cases they will be transmitted to the officer i/c records for enclosure with the original attestation.

Army Orders.—June, 1922.

A.O. 235 659k. When an officer or soldier, not on duty, is injured in any way by or through the fault of a civilian, and claims or receives compensation from such civilian, the fact should be recorded in the proceedings of the court of inquiry (if held) or on A.F. B 117.

ARMY ORDERS.

The following Army Order was published specially on 27th July, 1922.

A.O.254. 1922.	Promotion from the Ranks to Combatant Com- missions as Second Lieutenants.—The following regulations are issued in substitution of those issued under Army Order 86 of 1920, as amended by Army Order 398 of 1920 :—	100 Candidates 6503
---	---	------------------------------------

1. A candidate for promotion from the ranks to a combatant commission as second lieutenant must be unmarried. He must also be a British subject and the son of British subjects and of pure European descent. In a doubtful case the burden of clear proof of nationality and descent will rest upon the candidate or upon the parents or guardians of a candidate who is a minor. No candidate will be accepted unless, in the opinion of the Army Council, he is in all respects suitable to hold a commission.*

2. He will be required to undergo a special course of training of about one year's duration at the Royal Military College, Sandhurst, and to obtain a satisfactory report therefrom.

3. The first course of training will commence on 1st September, 1922 ; the second course will commence in January, 1924, and subsequent courses in January of each year.

4. The number of candidates admitted to the Royal Military College, Sandhurst, each year will vary according to the requirements of the service. The number of vacancies for the first course commencing in September, 1922, will be 35. The number of vacancies available for subsequent courses will be announced in Army Orders of May each year, commencing May, 1923.

5. Candidates for admission to the Royal Military College, Sandhurst, will be selected from those recommended on Army Form B 2081 (reprinted 1920).

* For the present, candidates from the ranks will be granted commissions only in the Cavalry, Infantry, Royal Army Service Corps of the British Service and in the Indian Army.

Army Orders.—July, 1922.

6. To be eligible for recommendation by his A.O. 254
Commanding Officer a candidate must— 1922
continued.

- (a) Be medically fit (*see* Appendix).
- (b) Be in possession of a Special† Army Certificate of Education, unless he is exempt from obtaining such a certificate (*see* paragraph 7).
- (c) Be at least an unpaid lance-corporal and have held that appointment or any higher rank for 6 months prior to the 1st July of the year in which he is recommended.
- (d) Be under 22‡ years of age on the 1st January of the year in which he is recommended.

7. A candidate who—

- (a) has qualified for admission to the Royal Military Academy, Woolwich, the Royal Military College, Sandhurst, or the Royal Air Force Cadet College, or
- (b) has passed the First Public Examination at the University of Oxford or the equivalent examination at any other approved university, or
- (c) has been granted a commission in the army from an officer cadet unit during the war of 1914–1919,

will be exempt from obtaining a Special or First Class Army Certificate of Education. In all cases reference will be made to the War Office to ascertain whether the candidate is so exempt.

8. The commanding officer and the officer commanding the candidate's squadron, battery or company must be able to certify that the candidate has shown promise of leadership in all branches of training, including both educational and recreational training, and that his military knowledge and bearing are such as to warrant his being trained for a commission. They must also certify that they would be willing to accept him, when trained, as a platoon, &c., commander in their unit.

The brigade commander will see the candidate and state his opinion as to his fitness and suitability. The general officer commanding the division (or equivalent formation) will then endorse the recommendation and forward it to the War Office.

† For admission to the course commencing in September, 1922, and January, 1924, a Special Army Certificate of Education will not be obligatory, but a candidate must be in possession of a First Class Army Certificate of Education. A candidate, however, who is in possession of a Special Army Certificate of Education will be given preference over those not in possession of this certificate.

‡ For admission to the Royal Military College in September, 1922, and January, 1924, the maximum age will be 24 years, after which it will be 22.

Army Orders.—July, 1922.

A.O. 254 9. *Recommendations on Army Form B 2081 (re-
1922 printed 1920) must be submitted so as to reach the War
continued. Office by 1st July in the year preceding the commence-
 ment of the course for which the candidate is recom-
 mended. If a recommendation sent from a distant part
 of the world is likely to arrive late owing to delay in
 the ocean mail, &c., the general officer commanding the
 division responsible for forwarding the application to
 the War Office should notify its despatch before 1st
 July to the Secretary, The War Office, by cable. With
 this exception, no recommendation received after 1st July
 will be entertained.

10. All recommendations received at the War Office
 will be considered together, and a selection, up to the
 required number, will be made according to the merits
 of candidates. A reply will then be sent in each case
 and authority issued for the selected candidates to
 proceed to the College for the next course.

11. Candidates admitted to the Royal Military
 College, Sandhurst, will be eligible for emoluments as
 follows :—

(a) They will be provided at the public expense with
 the necessary military outfit, books, instruments, &c.

(b) They will be allowed the cost incurred by the
 college for messing, washing and other contingencies.

(c) They will not be eligible for ration, clothing
 or other army allowance except that ration allowance
 will be issuable during leave, and quarters, fuel and
 light will be provided in kind while at the college.

(d) They will be credited with the pay of their army
 rank, but will be required to agree in writing to the
 following conditions of issue :—

(i) Payment will be made to each non-commissioned
 officer cadet for current expenses at a rate not
 exceeding 2s. a day.

(ii) The remainder of the army pay will be treated
 as deferred pay.

(iii) The deferred pay will be handed over to the non-
 commissioned officer cadet on his being commis-
 sioned or on his finally leaving the college.

(e) The question whether the candidate, on being
 commissioned, should have his outfit grant reduced by

adopted as regards the Permanent Staff of the
Territorial Army.

2. Non-commissioned officers posted for duty with the Permanent Staff of the Territorial Army, excepting those specially re-enlisted for such duty, will be regarded as being on the strength of their units for the purpose of appointment to the married quarters roll. A battalion with an establishment of 36 serjeants and 6 serjeants (excluding specially re-enlisted non-commissioned officers) on the Permanent Staff, Territorial Army, in addition, would be allowed 21 serjeants on its married quarters roll ($36 + 6 = 42$; 50 per cent. = 21), and so on.

168A. The powers conferred on officers i/c administration* (or on G.O.s.C. in commands where audit is not local) to authorize the writing-off of losses, &c., are shown in Appendix V (B). The amounts there shown represent the total or gross value of the lost cash, stores &c., or the total amount of the damage, without abatement on account of surpluses of other items and irrespective of any portion of the value of the loss or damage that may be made good by the person responsible. All over-issues, &c., for which responsibility attaches to a paymaster, should be submitted to the War Office.

The exercise of the powers referred to in commands to which audit has been decentralized is subject to the concurrence in each case of the local auditor. If the local auditor is unable to concur, the officer i/c administration will refer the matter to the War Office. In such a case the local auditor will report on the question direct to the Secretary (Finance), attaching the local correspondence.

169. The G.O.C. or officer i/c administration, as the case may be, will submit to the War Office all losses, &c., other than those with which he is himself empowered to deal. The submission should be accompanied by the Proceedings of the Court of Inquiry, &c., and by a brief statement of the case prepared by the local auditor.

When the whole of the loss is made good, reference to the War Office is not necessary except as provided in paragraph 670, unless there is suspicion of fraud on the part of the individual making good the loss.

169A. Deterioration of equipment, clothing, supplies, materials, and stores due to service or climatic conditions will be dealt with as provided in the various departmental regulations. Reference to the local auditor will be necessary unless it is clearly shown that the deterioration does not arise from causes within the control of a responsible person.

Publication

in the
Press.

Any information of a professional nature which he may acquire while travelling or employed on duty is to be regarded as the property of the War Department, and is not to be published in any form without the previous sanction of the Army Council, or in India of the Commander-in-Chief.

When application is made for permission to publish any article, &c., the document will be either type-written or in proof form, and will be submitted in duplicate direct to the War Office (or in India to the commander-in-chief). A statement will be enclosed from the authority (if any) under whom the applicant is immediately serving that such authority has no objection to permission being applied for. One of the copies will be retained at the War Office, or by the commander-in-chief in India, as the case may be, for reference. Permission to publish will apply only to the article, &c., as submitted, and no alterations therein, except of a purely editorial nature, and no additions thereto are to be made subsequently without the authority of the Army Council (or in India of the commander-in-chief). The permission to publish the article, &c., will not convey official endorsement of its contents, and no statement tending to imply official approval or endorsement is to be included in any part of the publication, nor is the permission to be referred to in any way.

The foregoing rules do not apply to officers on the half-pay list, but such officers must remember not merely that they are subject to the Official Secrets Acts, but also in their own interests that, as they may be subsequently employed on full pay, public expressions of opinion on controversial questions, especially on those dealing with foreign relations, may render their re-employment impossible in certain capacities, and that they will be held responsible for any publication which is considered by the Army Council to be subversive of discipline or contrary to the best interests of the Army.

 line 7. After "thereon" insert—

The restrictions imposed by this regulation on the A.O. 276.
 acceptance of late tenders follow from the instructions 1922.
 at the head of the forms of tender that the tenders must be delivered by a fixed time. They are especially necessary as a safeguard against the consideration of late tenders resulting from the unauthorized leakage of information as to tender prices, *which in all cases are strictly confidential*. This regulation should therefore be carefully observed, but where a fall in the market occurring about the time of tendering is reflected only in a late tender, or where a late tender is for other reasons particularly favourable, the advisability of declining all tenders and issuing fresh enquiries should be carefully considered.

Amended quotations received after the hour and date fixed for opening tenders become "late" offers and should also be shown on the schedule in red ink.

The legal position is that a tender can be withdrawn at any time before acceptance. If it were found that a firm repeatedly withdrew its tenders, the advisability of further permitting the firm to tender would have to be considered, but the legal right to withdraw a tender before acceptance cannot be contested. *There is no necessity to advise contractors as to their legal position.*

The authorized practice regarding the consideration of amended offers is—

- (a) If being originally the lowest, the tenderer reduces his price the correction is allowed.
- (b) If being originally the lowest he raises his price and remains lowest the revision is allowed, otherwise it is disallowed.
- (c) If not being originally the lowest he reduces his price and becomes lowest, the correction is disallowed, but the question of re-issue of tenders should be considered.

These Records will form the basis of Bills of Quantities for such services, as well as the basis of payment for the smaller periodical services executed under Maintenance Contracts.

Class A.

(1) Such tools, implements and plant as are held for use in connection with works services (including services carried out by the troops) and not for incorporation in a work.

These include, for example, all artisans' tools, portable boilers or machinery, road rollers, stone crushers, mortar mixing mills, scaffolding, &c.

(2) Stores of any description held for instructional purposes—such as bridging sets, or other stores for military engineering, &c. (*see* para. 594).

Class B.

(1) Consumable stores.

(2) Stores required permanently for, or incorporated in, the work or building for which they were supplied.

(3) Materials generally.

(4) Samples to govern supplies.

Sub-paragraph (2) above includes all articles which can be regarded as fixtures, such as :—

Ammunition lifts and davits, electric bells and accessories, telephones, electric light cables and fittings, electric light projectors; fixed boilers, pumping plant and machinery; water and gas mains, ventilating fans, arm and lance bands, cooking apparatus (except vessels for the same); fixed basins, benches, cupboards, cisterns, tanks, troughs,

They may be required for use :—

- (1) For considerable periods in works of defence.
workshops, pumping stations, &c.
- (2) On loan by officers, N.C.Os., or responsible sub-
ordinates for sub-issue to troops or workmen.
- (3) Temporarily by military labour, workmen, or by
N.C.Os. i/c working parties, &c. (See para-
graph 596.)

In all cases they are issued on temporary receipt. These receipts may take the form of lists of the various articles, signed by the officer or subordinate responsible ; but in this case the O. i/c Stores will ensure that arrangements are made to enable the respective articles to be checked easily with the tally cards, so as to facilitate stock-taking.

All temporary receipts are to be reviewed half-yearly, and fresh signatures obtained for the articles, so as to guard against losses. Receipts are not to be altered, any adjustments being effected by cancelling the old receipts and issuing new ones.

The cost of repair and maintenance of such stores is charged, in the first instance, to the "Class A Stores Wastage Account" kept by C.R.Es.

Class B stores are struck off charge on issue, and accounted for in the Class B Stock Account. Their value is debited through the stock account to the service on which they are used.

Although they are struck off charge, Class B Stores which after incorporation in the work are removable by unscrupulous persons are to be placed on inventory. Stores of this nature may include :—

Machinery weighing less than 15 cwt., fans, electric bells, telephones, electric lamp holders.

Army Orders.—July, 1922.

A.O. 278 There are numerous other articles of this nature,
1922 which it may be desirable to place on inventory. Such
continued. cases are to be decided locally, and the decision based on
 the following principles :—

- (1) The protection of the public from fraud or loss.
- (2) Simplification of procedure in accounting so far as is consistent with (1) above.
- (3) It is not necessary to place on inventory articles which cannot be removed without the fact becoming generally known, or articles, the prior existence of which cannot be questioned when found deficient on Engineer inspection.

Cables for Defence Electric Light Installations and for Electrical Communications will be dealt with as directed in the Cable Record Book (A.B. 18).

Process to be followed by armourers in regimental shops and R.A.O.C. workshops where without sand blast.

The following quantity is sufficient for 50 rifles. One-third of this quantity will be sufficient for 50 bayonets and scabbards :—

				ozs.
Rain or soft water	...	...	...	12
Blue stone	...	...	...	$1\frac{1}{6}$
Nitric acid	...	...	...	$1\frac{1}{4}$
Tincture of steel	...	...	...	$3\frac{1}{2}$
Spirits of wine...	...	...	...	2
Spirits of nitre...	...	...	...	3

The above-mentioned ingredients will be mixed by the armourer in the order shown, directly they are received. Os.C. units, &c., will caution armourers against keeping the ingredients packed in separate bottles, as danger from fire is likely to arise from the nitric acid if it is spilt before being mixed with the other ingredients.

If the armourer has a larger quantity of ingredients A.O. 292 than he actually requires for the arms he has to brown, 1922 he will at once return the surplus to the quartermaster's *continued* store.

Ingredients for browning mixture should be measured by fluid measure as follows :—

60 minims = 1 dram.

8 drams = 1 oz.

20 ozs. = 1 pint.

1st Day.

Boil components in strong soda water for $\frac{1}{2}$ hour ($1\frac{1}{2}$ lbs. of soda to the gallon of water) to remove the grease. Wipe down with clean wet cloths to remove soda (inside of barrels to be wiped out with rod and wet jute). When barrels and components are cold coat with the mixture rubbing the first coat well in. Stand in a dry place for 3 to 4 hours, then coat cold with mixture again and stand in the drying room for the night.

2nd Day.

Notes on nugatory payments.—1. A nugatory payment represents an immediate and formal loss, *i.e.*, the payment of money in return for which no service is rendered. It does not include constructive loss, *i.e.*, uneconomical expenditure, where due service is rendered in return for the payment, although owing to change of policy, error of judgment, or otherwise, the service rendered does not have the utility intended. To assist in making this distinction clear, the following instances are given:—

Recorded as nugatory.	Not recorded as nugatory.
(a) Payment for stores not delivered owing to cancellation of contract. (b) Rent paid for premises after surrender on termination of occupation, but before termination of tenancy. (c) Freight of men or stores not shipped. (d) Payment to a contractor of compensation for loss on account of delay in handing over the site. (e) Extra payment to a contractor for supplies owing to reduction of quantities taken below those named in the contract.	(a) Payment for stores delivered but useless owing to change of pattern. (b) Rent paid for rifle range retained in possession but closed as unsafe. (c) Payment to transport contractor for teams furnished as requisitioned but not used. (Payment for teams not furnished would be nugatory.) (d) Payment for overhauling machinery which had laid unused owing to its having been ordered for delivery before the foundations were ready. (e) Extra cost by purchase of home-grown instead of imported supplies, contrary to order that no preference should be given.

2. War Office sanction is required for all nugatory payments, except:—

- (i) Payments to contractors for sums not exceeding £40 for loss due to departure from the terms of a contract (*see* section V (1)).
- (ii) Payments specially provided for in the terms of a contract. In these cases, however, reference to the War Office is desirable when the payment is exceptional in amount or character.

ARMY ORDERS.

Army Orders Nos. 338 to 341 have been published specially during the month of September, 1922.

Published on 4th September, 1922.

A.O. 338. 1922.	Battle Honours.—1. His Majesty the King has been graciously pleased to approve of the award of battle honours to regiments and corps under the following conditions :—	<table border="0"> <tr> <td style="text-align: right;">3</td> </tr> <tr> <td style="text-align: right;"><u>Gen. No.</u></td> </tr> <tr> <td style="text-align: right;">209</td> </tr> </table>	3	<u>Gen. No.</u>	209

- (a) Regiments and corps will have awarded to them, and recorded in the Army List, in addition to those already shown, the honours due to them for taking part in the battles enumerated in columns headed (1) "Operations" and (2) "Battles" ("Name" and "Tactical Incidents Included") of the tabulated list of engagements given in the report of the Battles Nomenclature Committee.
- (b) Following the honours previously earned and at the head of the List of Honours granted for the Great War to be recorded in the Army List will be placed "The Great War," and the number of the battalions of the regiment taking part, *e.g.*—

THE DEVONSHIRE REGIMENT.

**"THE GREAT WAR"—10 BATTALIONS, MONS,
MARNE, AISNE, &C.**

- (c) Within the meaning of regiments and corps will be included Cavalry and Yeomanry regiments. An infantry regiment or corps will include the Regular, Militia (or Special Reserve), Territorial and Service battalions of the regiment concerned. There will be only one Honours List for a regiment or corps.
- (d) Regiments of Cavalry and Yeomanry, battalions of Infantry, Regular, Militia (Special Reserve), and Territorial, will have emblazoned on their

history of the regiment concerned from the
date on which it was raised to the end of the
Great War, such honours to be selected by
Regimental Committees from the List of
Honours to be shown in the Army List. The
honours emblazoned on the Colours will be the
same for all units comprising the regiment
concerned, and will be shown in the Army List in
thicker type.

- (e) The guiding principle in the selection and allotment of battle honours will be that Headquarters and at least 50 per cent. of the effective strength of a unit in a theatre of war (exclusive of drafts which, although in a theatre of war, had not actually joined the unit) must have been present at the engagement for which the honour is claimed.
- (f) Regimental Committees under the chairmanship of their regimental colonels, or of representatives to be nominated by the regimental colonels, will be set up to select the particular honours for Regimental Colours.

2. Detailed instructions have been issued to the colonels of regiments and corps concerning the preparation and submission of claims for the award of battle honours.

continued.

Paragraph 1 of the Army Council's Instruction to Part 5, Section I, sub-section vii (page 180), will be amended to read as follows :—

1. In the case of warrant officers and non-commissioned officers and the saddler or saddletree-maker, promoted under Article 719, the charge for any increased rates of pay (whether on promotion or otherwise) dependent on length of service will be supported by a copy of the soldier's record of service, and by the special recommendation of the officer under whom he is serving. In the case of other soldiers granted increments dependent on length of service, this will not be required, but notification of the grant in Part II, Orders, will suffice. In such cases, if the increment has been withheld on the certificate of the C.O. and is subsequently granted on the soldier's attaining the necessary standard of military efficiency, it will be issuable only from the date on which the grant is notified in Part II, Orders.

When once the increment has been granted, the pay of the soldier cannot be reduced to the lower rate if he fails to maintain the standard of efficiency. In this respect increments of pay differ from proficiency pay.

The duplicate will be retained and kept up-to-date by the O.C. the unit or establishment on whose strength the officer is. The officer will initial any alterations in his personal particulars in the duplicate which may be necessary from time to time.

A.F. B 199A will not be maintained for officers of or above the rank of colonel. It will not contain any confidential entries.

In the case of officers who, in peace, are not on the strength of any unit, viz., those on retired pay and half-pay lists, those of the Regular Army Reserve of Officers and Territorial Army Reserve of Officers and Territorial Army Unattached List not affiliated to units, the duplicates will be retained in the War Office with the originals.

When an officer is transferred to a new unit or establishment, the duplicate of his record of service will be transferred with him.

On an officer, dying, retiring, resigning, or being relegated to half-pay, his duplicate A.F. B 199A will be forwarded to the War Office.

The original A.F. B 199A in the War Office will be kept up-to-date by means of reports of joinings, departures and other casualties made by unit commanders on A.F. B 151 as they occur.

Army Orders.—September, 1922.

On active service the duplicate A.F. B 199A will be held and kept up-to-date by the branch of the A.G.'s staff at the base dealing with officer records.

1927A. An employment sheet (A.F. B 2066) will be maintained for every soldier of the regular army.

A.O. 366.
1922.

In the case of a soldier of, and above, the rank of colour-serjeant, or its equivalent, the employment sheet will be kept with the regimental conduct sheet, and in the case of a soldier below the rank of colour-serjeant, or its equivalent, with the company, &c., conduct sheet.

An employment sheet will not accompany a soldier undergoing a course of instruction, the result of which will be recorded thereon by the soldier's unit commander.

The employment sheet is to form a history to show the capabilities and qualifications of a soldier for employment in civil life, but is not to refer to the soldier's military character, which is recorded in his conduct sheet.

As the employment sheet is to be referred to by the officer in assessing, in testimonial form, the soldier's character when he leaves the Colours (*see* para. 418), it is important that anything concerning the soldier which can possibly be of assistance in assessing his capabilities and qualifications should be recorded thereon as it occurs.

For this reason the trade qualifications of a soldier in a technical corps, together with any improvement or deterioration of qualifications, the extent to which the soldier has been employed at his trade, and the manner in which he has carried out his work, are to be recorded. The period during which a soldier has been under instruction in a special military subject, or under special educational training, and the period of his employment in any form of technical work, or in any work additional to his actual military training (such as officer's servant, cook, &c.), the extent to which he has been so employed, and the manner in which he has carried out his work, will also be recorded.

The capabilities and qualifications of each soldier will be summed up and recorded on the employment sheet annually, before 1st October, and whenever a soldier is transferred to another unit. In the case of a soldier employed on the staff of a unit, such record will be made by the officer under whom he is employed, in the case of a soldier present with his unit by the company, &c., commander, and in the case of a soldier

continued.

This summary is to indicate the soldier's merits, and if necessary his defects, under such heads as industry, energy, cleanliness, trustworthiness, intelligence, initiative, self-reliance, capacity for continuous hard work, educational standard, &c. Special mention will be made of any trade or occupation which is likely to be of use to the soldier in civil life.

When the assessing officer has not sufficient personal knowledge completely to summarize the record of a soldier who has not been wholly employed under him, he is to consult an officer who can be of assistance.

Whenever an employment sheet is summarized a red line will be drawn below the summary.

After each summary is completed it will be read to the soldier, who, if dissatisfied, will be given an opportunity of appealing to his commanding officer. The opportunity thus offered will be used to warn a soldier who is deteriorating of the serious consequences which unfavourable entries will have on his prospects after leaving the Colours.

When a soldier is transferred to the Reserve or discharged, his employment sheet will be forwarded with his other documents to the Officer i/c Records for retention.

A.O. 423.

Provision of Chargers.

1922.

GEORGE R.I.

WHEREAS We deem it expedient to amend the regulations relating to the provision of chargers for officers of Our Army ;

OUR WILL AND PLEASURE IS that the Schedule attached to Our Warrant of 22nd July, 1920,* as amended by Our Warrant of 10th October, 1921,† shall be further amended as follows :—

1. Paragraph 2, sub-paragraph (b), shall be *deleted*.

2. Paragraph 6, sub-paragraph (b), line 4. *Before* "Any" shall be *inserted* "(i)."

3. Paragraph 6. At the end of sub-paragraph (b) shall be *added*—

A.O. 423.
1922.

(ii) In lieu of hire for general purposes an officer may alternatively be allowed to purchase his public charger by instalments, including hire and insurance, at the following rates :—

When the recorded value of the animal is—

—	Over £120.	£110 to £120.	£90 and under £110.	£60 and under £90.	Under £60.
Each year for 4 years.. ..	£28	£23	£18	£15	£10

At the end of 4 years and after the 4th year's payment has been completed, the horse will become the officer's property subject to the limitation that he will be required to retain it with his unit as his private charger for 3 years thereafter, unless it is certified to be unfit, in which case the State will make no further claim on its services.

During the 4 years elapsing before the charger becomes the property of the officer, it will be held on the same terms and conditions as though it were a "General purposes charger" (*see* sub-paras. (b), (f) and (g)), the instalments as above taking the place of the hire charge referred to in (i) above.

On completion of his term in an appointment, on his being ordered abroad, or on retirement, an officer may purchase the horse outright by payment of the difference between the sum paid as purchase instalments and the value of the animal when purchase commenced. The

Army Orders.—November, 1922.

animal will then become his absolute property. If, **A.O. 423** however, he does not wish to complete the purchase he **1922** may give up all claim to the horse and be refunded the difference between the purchase instalments he has paid and the amounts he would have paid had the horse been held as a "General purposes charger." In any case one complete quarter's payment must be made in respect of any one horse. *continued.*

Payments will be made in advance, and an officer may make the payments through his Agents by quarterly deductions from his pay.

4. The following new paragraph shall be *added*—

A.O. 443. **Clothing Allowances.** — 1. As an experimental measure during the 12 months commencing 1st January, 1923, it has been decided that certain amendments shall be made to the clothing allowance system at present in force, except in the case of civilian subordinates. Instead of being credited quarterly in advance, as at present, the allowance will in future be credited monthly in arrear, except for any month during the whole of which the soldier is absent from duty on account of sickness, desertion, imprisonment, &c. The amount credited to the soldier will be the same as under the present system, but instead of being credited with a lump sum at the beginning of a quarter, whether or not it is required at the time to pay for clothing issues, the man will be credited with the allowance by monthly instalments to pay for issues of clothing, &c., made during the month. A deduction of one-thirtieth of the full monthly allowance will be made for each day on which a man is absent from duty through being in hospital, or through absence without leave, desertion, or imprisonment. In the case of a man in hospital, a small allowance will be made to cover the cost of wear and tear of such items as he is called upon to take into hospital for his personal use.

54
Gen. No.
5133

2. In accordance with these principles, the following changes will be made in the rules governing the issue of the allowances :—

(a) The monthly rates will be one-third of those laid down in Army Orders 79², 359 and 360 of 1922, and will be credited in arrear on the last day of each month.

• As amended by Army Order 196 of 1922.

Army Orders.—November, 1922.

(b) Each month will be regarded for clothing allowance purposes as consisting of 30 days. A.O. 443
1922

(c) The first allowance to a recruit will be made on the last day of the month in which the first anniversary of his enlistment occurs. Thus a recruit enlisted on 15th November, 1922, will be credited with his first allowance on 30th November, 1923. The first allowance credited to a recruit will consist of :—

- (i) The monthly rate reduced by one-thirtieth in respect of each day of that month preceding the day of the first anniversary of his enlistment.

The examples in the following table show the application of this rule :—

Date of enlistment.	Date of credit of first allowance.	Amount of first allowance to be credited.
1.2.22	28.2.23	Monthly rate less Nil thirtieths.
2.2.22	"	" " 1 "

- (ii) In addition to this allowance there will be credited in all cases, with the exception of native soldiers of local forces, the special additional allowance referred to in Clothing Regulations, Part I, 1922, paragraph 28, as amended by Army Order 327 of 1922.

(d) The quarterly allowance that would, under present Regulations, be due on 1st January, 1923, to men who enlisted on or before 31st March, 1922, will not be credited. In the case of men enlisted prior to 1st January, 1922, an allowance of one-third of the present quarterly rates will, commencing 31st January, 1923, be credited on the last day of each month. Men enlisted on or after 1st January, 1922, will be treated under sub-paragraph 2 (c) above.

Army Orders.—November, 1922.

A.O. 443 (e) Except as provided under sub-paragraph (k) below, a deduction of one-thirtieth of the monthly rate will be made for each day during the month on which any man with over 12 months' service is absent from duty through being in hospital, or through absence without leave, desertion or imprisonment. (This deduction will not apply to men in custody awaiting trial or to men in detention.) For example, a man in hospital or absent for 28 days during any month (except February) would be credited with two-thirtieths only of the monthly rate on the last day of the month. A man absent during the whole of any month (including February) would, however, not be credited with any part of the monthly allowance.

1922
continued.

(f) In the case of men in hospital, although a deduction as in sub-paragraph (e) above will be made from the usual monthly allowance, a special daily rate of 1d. for each day in hospital will, except as provided in sub-paragraph (k) below, be credited at the end of the month to cover incidental expenses, *e.g.*, haircutting and wear and tear of such items of the man's kit, &c., as are taken into hospital for his personal use.

(g) On discharge or transfer to the Army Reserve, men who enlisted on or after 1st January, 1922, will be credited with one-thirtieth of the monthly rate for each day of service during the month in which their discharge or transfer to the Army Reserve takes place, subject, if necessary, to the deduction referred to in sub-paragraph (e) above. For example, a man discharged on the 9th day of a month would receive nine-thirtieths of the allowance. A man discharged on the last day of any month (including February) would receive the full monthly allowance (subject to sub-paragraph (e) above).

(h) Men who enlisted before 1st January, 1922, will not be entitled to any clothing allowance for the quarter in which their discharge or transfer to the Army Reserve is expected to take place. For example, a man who is due to leave the colours on any date between 1st April and 30th June, 1923, inclusive, will not be credited with any clothing allowance after that due on 31st March, 1923.

(i) An exception to sub-paragraph (h) will, however, be made in the case of—

- (i) Men who enlisted on the first day of a quarter and who are due for discharge or transfer to the Army Reserve on the last day of a quarter, and
- (ii) Men who re-enlisted under Army Order 4 of 1919 and are due for discharge on 31st March, 1923 or 1924.

Army Orders.—November, 1922.

Such men will be credited with the allowance in respect of the clothing quarter on the last day of which their discharge or transfer to the Army Reserve takes place. A.O. 443
1922
continued.

(j) If the discharge or transfer to the Army Reserve of a man who enlisted before 1st January, 1922, is postponed beyond the quarter in which it was due, the allowance will then be credited up to the last day of the quarter preceding the quarter in which the discharge or transfer to the Army Reserve actually takes place.

(k) The one-thirtieth deductions and special daily rates under sub-paragraphs (e) and (f) will not apply to men who enlisted before 1st January, 1922, during the quarter in which their discharge or transfer to the Army Reserve is effected. In the case of men who under sub-paragraphs (i) and (j) above are credited with the full quarterly allowance, such allowance will be treated as an issue in arrear of three separate monthly allowances, and any deductions or special credits due in accordance with sub-paragraphs (e) and (f) above will be made on a monthly basis.

(l) In the case of any change (such as promotion, change of station, &c.) affecting the rate of clothing allowance, the new rate will apply to the whole of the month in which the change occurs, except as provided in sub-paragraph (m) below.

(m) In the case of transfers from Imperial to Indian stations, one-thirtieth of the monthly rate of clothing allowance will be credited by the Imperial Paymaster in respect of each day in the month of embarkation which precedes the date of embarkation. In the case of men leaving India or Aden on or after 1st April, 1923, on transfer to an Imperial station, one-thirtieth of the monthly rate of clothing allowance will be credited by the Imperial Paymaster in respect of each day of the month from and including the date of arrival in port at home, or disembarkation at stations abroad. Men leaving India with their units on or after 1st January, 1923, will be similarly treated, but drafts and details leaving India or Aden between 1st January and 31st March, 1923, for further service, will have received their full quarter's allowance on 1st January, 1923, in India, and will not draw any further clothing allowance until 30th April, 1923.

Men, however, who enlisted before 1st January, 1922, and who are due for discharge or transfer to the Reserve during the quarter in which their disembarkation from India or Aden occurs, will be treated under the conditions of sub-paragraphs (h) to (k) above. Clothing

Army Orders.—November, 1922.

A.O. 443 allowances issued under the conditions of sub-paragraphs 1922 (i) and (j) to men who were on the Indian establishment on the first day of the quarter in which they arrive in port on return from India or Aden will be dealt with under paragraph 323, Clothing Regulations, Part I, 1922, and will be paid by the Indian Government. The deductions and special daily rates due under sub-paragraphs (e) and (f) for periods while the man was on the Indian establishment will be dealt with by the Indian paymaster and those for periods on the home establishment by the home paymaster.

(n) Paragraph 43 and the last sentence of paragraph 64, Clothing Regulations, Part I, 1922, will be provisionally suspended. In the event of the clothing allowance being temporarily insufficient to meet purchases the balance will be debited against the soldier's pay.

(o) The accounts of soldiers who proceed overseas before becoming entitled to their first clothing allowance will be debited with the cost of the clothing required for the new station under paragraph 369, Clothing Regulations, Part I, 1922, but the cash issues to such soldiers and allotments of pay, if any, will not be reduced by reason of such debit until after the men have been in receipt of clothing allowance for 3 months.

3. The instructions in the Clothing Regulations, Part I, 1922, contained in paragraphs 20 to 29, 31, 33, 40, 109, 125, 126, 128, 188, 195, 208, 213, 323, 365, 366, 367 and 369, will until further notice be modified in accordance with this Army Order.

4. Barrack wardens and civilian subordinates will continue to draw their clothing allowance quarterly pending further instructions.

500. When the condition of stores issued from one army ordnance depot to another is found, on receipt, to be different from that shown on the vouchers, the following action will be taken :—

A discrepancy report will be forwarded, in duplicate, by the consignee to the consignor. The consignor's copy of the issue voucher will not be altered, but the consignee will amend his copy to show the condition of the stores as found by him on receipt and will bring them on charge accordingly.

Army Orders.—November, 1922.

The consignor will return to the consignee the original discrepancy report which, with any correspondence, will be eventually attached to the consignee's receipt copy of the voucher. Similarly, the duplicate copy of the discrepancy report with a copy of the correspondence will be attached to the original issue voucher by the consignor. A.O. 454

continued.

If the discrepancy is found to be due solely to a difference of opinion between ordnance officers as to the condition of the stores, no further action beyond attaching the discrepancy report and correspondence to the vouchers need be taken in the matter.

If, however, the condition of any stores on receipt is considered by the receiving O.O. to be due to circumstances other than fair wear, he will record the fact in the discrepancy report, and through his C.O.O., will bring the matter to the notice of the C.O.O. of the area or command in which the issuing depot is located. The latter will take steps to ensure that the case is dealt with in the manner prescribed by the King's Regulations for losses of, or damages to, stores belonging to the public.

In order, however, to avoid unprofitable correspondence on the subject of the condition of stores transferred between army ordnance depots, arrangements will be made for the inspection of the stores by an ordnance officer prior to despatch.

1923.

Army Orders.—January, 1923

A.O. 7 (b) When a married officer on the lodging list is
1923 ordered on temporary duty from his station he may
continued. choose either to retain or to relinquish his lodgings at his permanent station. If he retains them he may continue to draw the married rate of lodging money and will be entitled, in addition, to the single rate (or to a free single quarter) at his temporary station. If he chooses to relinquish them he will be entitled to lodging money at the married rate applicable to his temporary station, and if he occupies a single officer's quarter at that station he will be charged a rent equal to the rate of lodging money of the officer to whom the quarter would normally be allotted * (*see footnote*).

Similarly, an officer in married quarters when ordered on temporary duty will have the choice either of retaining his quarter and being treated as a single officer at his temporary station, or of vacating his quarter and drawing only the married rate applicable to the temporary station. If he chooses to vacate his married quarter he will be paid no married allowances unless the vacated quarter is immediately re-allotted to another officer, thereby causing no increase of numbers on the lodging list † (*see footnote*). He may, however, draw the single rate as for a single officer at his temporary station if no single quarter is available for him.

(c) When an officer on the lodging list is transferred to a station to which his family cannot accompany him owing to illness certified by the medical officer, the rate of lodging money for married officers, up to 91 days, may be continued regardless of the place of residence of the family during such separation. If the family is in occupation of public quarters at the time of the transfer of the officer and is compelled to vacate them during the illness, the rate for married officers, up to 91 days, may be issued from the day the quarters are vacated. Lodging money, however, will not be paid unless there is compulsion to vacate.

(d) The limit of 91 days referred to in (a) and (c) above may be exceeded under the authority of the G.O.C. when he is satisfied that the separation between the officer and his family cannot be brought to an end at an earlier date.

Issues will, as a rule, be limited to 6 months, but in

NOTE.—A married officer either on the lodging list* or in quarters† who chooses to vacate his lodgings or quarter at his permanent station will on return thither not be entitled to consideration for allowances under paragraph 2, Table XIV, Army Order 321 of 1919.

not exceeding 500 lbs. at one operation, the following instructions being observed :—

- (i) The gunpowder in its original packages will be conveyed to the ground selected which should be free from dry grass or other inflammable substance and situated at a safe distance from buildings or public highways.
- (ii) The ground must be well watered before laying out the trail of powder and again after the burning. One half hour should be allowed to elapse between burnings on the same ground.
- (iii) The gunpowder is to be laid out in a trail of about 100 feet in length. The operator will ascertain that the ground is clear, then connect an electric tube to leads of suitable length for connection with a firing battery, place the tube in the train of gunpowder so that the direction of burning may be as far as possible against that of the wind, retire under cover or to a safe distance, not less than 20 yards, connect the leads to the firing battery and press the firing key. This should fire the tube which in turn should ignite the gunpowder.

If the gunpowder contains more than 30 per cent. of water it will not ignite readily ; if such is the case some of the water should be allowed to dry out in a dry atmosphere until the gunpowder will ignite.

Any solution that may be left in the packages should be washed down a drain or poured into a pit dug in the ground."

1923. **Artillery.**—1. The different scales of clothing in the various branches of the R.G.A. have resulted hitherto in inconvenience and unnecessary expenditure in the interchange of personnel between those branches. It has therefore been decided that the personnel of *all* R.G.A. units of the Regular army will in future be clothed as mounted men, but spurs will be issued only to such personnel as actually perform mounted duties.

2. In the case of personnel at present serving who are clothed on the dismounted scale the change will be effected as follows :—

- (a) An immediate free issue of one pair of pantaloons, cord, will be made, the remaining alterations in the scale of personal clothing being effected gradually by the issue of articles on repayment out of the Clothing Allowance, as replacements become necessary.
- (b) Dismounted pattern greatcoats will be withdrawn and replaced by coats, warm, mounted services.
- (c) The rate of clothing allowance issuable to personnel of all R.G.A. units will, as from 1st April, 1923, be that laid down for mounted services.

3. The necessary amendments to Clothing Regulations, Part I, 1922, will be made in due course.

4. No change in the equipment of R.G.A. personnel will be made.

A.O. 99. Depots of Infantry of the Line—Re-organization. 1923.

—1. In order to provide at depots of infantry of the line a more complete and adequate system of training regular recruits than has hitherto been in force, infantry depots, excluding those of single battalion regiments, will be re-organized, and a revised syllabus of training will be adopted as described below.

This re-organization will take effect from 2nd April, 1923, and will be completed by 1st July, 1923.

2. Owing to the suspension of recruiting for the militia infantry, no provision is being made for that branch in the organization and establishments of depots of infantry of the line.

3. The re-organization of infantry regimental depots has in view the following objects :—

(a) The adoption of such a syllabus and period of training of recruits as will permit of—

(i) The completion of the individual recruit training of infantry recruits at the regimental depots.

(ii) Infantry recruits receiving at the regimental depots such elementary collective training as will fit them to take their places in a platoon of a battalion serving at home.

(b) The provision of a nucleus to provide the machinery for the training of reinforcements during war.

(c) The custody of reservists' equipment and the reception of reservists on mobilization.

(d) The disposal of personnel under Army Council Instructions 440 and 522 of 1922.

4. *Recruiting.*—Detailed instructions regarding certain modifications in the existing recruiting arrangements, rendered necessary by the system under which training-squads of recruits will be formed, are contained in Army Council Instruction 107 of 1923.

5. *Establishments.*—The establishment of an infantry depot is shown in Appendix I, but this establishment has not yet been finally approved, and no promotions will be made to complete it pending further instructions. The selection of personnel to fill vacancies in

this establishment will be made with due regard to A.O. 99
the following instructions :— 1923

continued.

- (a) Normally, the appointment of personnel of all ranks for a tour of duty with infantry depots will be for a term of 3 years.
- (b) Officers for duty with infantry depots will be specially selected by battalion commanders, subject to the approval of the commander of the area in which the depot is situated.
- (c) The warrant officers and the non-commissioned officers of and above the rank of serjeant, for duty with infantry depots, will be selected by the commander of the area in which the depot is situated, from a list compiled by the officer i/c records of qualified warrant officers and non-commissioned officers who are recommended for such appointment. For this purpose, officers commanding battalions (at home and abroad) will forward to the officer i/c records, on the last day of each quarter, a list of the personnel whom they recommend for these appointments, showing which of them are desirous of being appointed.
- (d) Not more than 50 per cent. of the authorized number of warrant officers, and of the non-commissioned officers of and above the rank of serjeant, are to be appointed to the depot from the battalion serving abroad; the remainder of these ranks will be obtained from the battalion at home.
- (e) All "other ranks" not referred to at (c) and (d) above will be selected from the home battalion by the officer commanding that battalion subject to the approval of the commander of the area in which the depot is situated.
- (f) All non-commissioned officers selected for duty with infantry depots must be recommended by their battalion commanders as suitable for promotion to the next higher rank.

King's Regulations will be amended in due course:

6. The appointment of assistant adjutant at infantry depots will cancel this appointment in infantry battalions at home. Provisional Peace Establishment No. 100, issued with Army Council Instruction 513 of 1922, will be amended accordingly by the deletion of the assistant adjutant and one private (batman) from No. 3 Group.

Army Orders.—March, 1923.

A.O. 99 7. Separate instructions will be issued regarding the
1923 emoluments of the Acting Adjutant and the Assistant
continued. Adjutant.

8. *Organization.*—The organization of an infantry depot will be as follows :—

- (a) A depot headquarters ;
- (b) A training company ;
- (c) A training cadre ;

the detailed composition is given in Appendix I.

9. The depot headquarters is an administrative organization, and consists of all personnel not immediately concerned with the individual training of the recruits of the depot.

10. The training company comprises a company headquarters and the instructional staff for five training squads.

11. The training cadre is composed of a subaltern, a serjeant, and four section leaders, and it has three functions, viz. :—

- (a) To teach the recruits the elements of section and platoon organization and infantry fire tactics, thus preparing them to take their places in the ranks of a battalion at home.
- (b) To train non-commissioned officers in the instruction of recruits.
- (c) To illustrate simple tactical exercises to recruits and non-commissioned officers, and to Territorial Army and Officers Training Corps units.

12. *Administration.*—The whole depot will be administered by the Headquarters. There will be one imprest holder.

Depot accounts will be rendered to the regimental paymaster on one pay and mess book.

The pay and mess book will be kept by the company-quartermaster-serjeant of the depot headquarters, who will be assisted by a clerk.

Central messing will be adopted.

13. *Training.*—The syllabus of recruits' training is given in Appendix II.

NOTES.

1. The subjects, and the hours allotted to each are given as a guide.
2. The syllabus will be commenced the first Monday after the Training Squad is complete. In special cases, the Area Commander may authorize the Syllabus being commenced with a smaller number than 30 recruits.
3. It will be noted that 17 weeks have been allotted to Individual Training in the Training Squad, by which time the recruit has completed all individual and physical training, has fired Table A, whether on the 30 yards or on the open range, and has obtained his Third Class Certificate of Education. This will be followed by Elementary Collective Training in the Training Cadre for two weeks. This 19 weeks with one week spare (to make up for bad weather and deal with casualties), makes a total of 20 weeks' training.
4. Table A will be fired as soon as the recruit attains the required standard. Twelve hours have been allowed in the 17th week for Range Practices; this is to provide for time being spent in proceeding to and from an open range. If Table A is fired on a 30 yards range or on an open range close to the Depot, a portion of the 12 hours can be allotted to other subjects.
5. Depot Commanders will arrange a weekly conference (preferably on a Saturday), at which the Syllabus for the ensuing week will be discussed.

6. The syllabus is based on minimum working hours as follows :—

Monday, Tuesday, Thursday and Friday, 5 hours each day.
Wednesday and Saturday, 3 hours each day.

Total, 26 hours a week.

A.O. 99
1923
continued.

Wednesday afternoon will be devoted to recreational training.

7. *Physical training.*—(a) It is recommended that 1 hour be allotted to physical training each day, Monday to Friday, and that Saturday be utilized for casualties who have missed instruction from any cause.

(b) "Unsquadded" recruits will do 1 hour's physical training a day.

8. *Education.*—A total of 80 hours has been allotted to educational training, and should enable all recruits (except the very illiterate) to obtain Third Class Certificates. It is suggested that 1½ hours be allotted on each of the following days: Monday, Tuesday, Thursday and Friday. Saturday should be kept for a class of casualties, to enable those who have missed instruction to catch up.

"Unsquadded" recruits will do 1 hour's educational training a day.

9. *Drill.*—The hours allotted to drill include drill in elementary battle formations (see Chapter IV, Infantry Training, Volume I).

Recruits must be thoroughly instructed in these formations before the 17th week in order that they may understand their Tactical Training in the Training Cadre.

Provision of Chargers.

GEORGE R.I.

WHEREAS We deem it expedient to amend the regulations relating to the provision of chargers for officers of Our Army ;

116
Gen. No.
7092

OUR WILL AND PLEASURE IS that the Schedule attached to Our Warrant of 22nd July, 1920,* as amended by Our Warrants of 10th October, 1921,† and 18th November, 1922,‡ shall be further amended as follows :—

Paragraph 6, sub-paragraph (b) (ii). *For the last three sub-paragraphs substitute—*

A.O. 100.
1923.

During the 4 years elapsing before the charger becomes the property of the officer, it will be held on the same terms and conditions as though it were a "General purposes charger" (*see* sub-paras. (b), (c), (f) and (g)), the instalments as above taking the place of the hire charge referred to in (i) above.

On completion of his term in an appointment, on his being ordered abroad, or on retirement, an officer may, subject to the condition that 2 years have elapsed since the registration of the charger for instalment purchase, purchase the horse outright by payment of the difference between the sum paid as purchase instalments and the value of the animal when purchase commenced. The animal will then become his absolute property. If, however, he does not wish to complete the purchase he may give up all claim to the horse and be refunded or refund the difference between the purchase instalments he has paid and the amounts he would have paid had the horse been held as a "General purposes charger." In any case one complete quarter's payment must be made in respect of any one horse.

Payments will be made in advance, and an officer may

* Army Order 227 of 1920. † Army Order 131 of 1921.
‡ Army Order 423 of 1922.

Army Orders.—March, 1923.

make the payments through his Agents by quarterly A.O. 100
deductions from his pay. 1923

In the event of a charger dying or becoming unfit for service, through any cause whatever, except culpable negligence, whilst in process of being purchased by an officer, but before the purchase has been completed, the carcase or the horse, as the case may be, remains the property of the State, payments cease and the officer has no further liability in respect of the horse. *continued.*

As payments are made in advance, a proportional refund of the last payment may be made.

The War Department will bear the loss of the balance of the purchase price still due, and the contract will be at an end.

(ii) **Army Form G 3521, "Record of Value—A.O. 170 Mechanically Propelled Vehicles."**—In connection with the record of value of M.T. vehicles, it has been found necessary to amend the notes appearing at the foot of Army Form G 3521 in order to conform to cost accounting procedure. continued

"(1) Depreciation will be reckoned from the nearest first day of the month of purchase, or the nearest first day of the month in which the vehicle is known to have entered the service, as shown at the head of the form.

(2) On transfer between units, depreciation will be assessed and charged in full for the current month, prior to the transfer of the documents, by the unit having the vehicle on its charge on the first day of the month.

(3) The monthly depreciation will be assessed on the original purchase price, and not on the diminishing value of the vehicle.

(4) Depreciation, although charged in the accounts each month, need only be recorded on this form quarterly, unless a casualty takes place during the quarter.

(5) Depreciation will cease to be recorded when the book value of the vehicle, as shown by this form, falls to 10 per cent. of the original cost. The final entry of depreciation will, accordingly, be such amount only as is required to diminish the book value to 10 per cent. of the original cost.

(6) Any large capital appreciation of the vehicle due to (a) extensive additions, (b) complete overhaul and reconditioning, should be added to the "present value." The total appreciated cost will be added in the case of (a), and 50 per cent. of the cost of the overhaul and reconditioning in the case of (b).

To ensure, in all such cases, that the amount to be reckoned as appreciation is uniformly and correctly assessed, the value of a vehicle will not be altered by additions consequent on (a) or (b), without prior reference to the O.C., M.T. Stores Depot.

(7) A separate valuation form will be used for technical apparatus or equipment, such as guns, &c.,

which do not form an integral part of the vehicle, or chassis, and its M.T. equipment.

1923.

When a contractor becomes liable for liquidated damages the amount of damages assessed will at the time be notified to the command paymaster and the officer in charge of supplies concerned.

The previous sanction of the War Office is required for the abandonment or reduction of a claim for liquidated damages if the liability of the contractor exceeds £100 or the breach of contract has caused increased cost to the public.

The Officer i/c Administration may remit or modify claims for liquidated damages when the liability does not exceed £100 and the breach of contract has not caused increased cost, if he is satisfied that there is insufficient ground for enforcement. In such cases the Officer i/c Administration will inform the contractor of his liability incurred in respect of liquidated damages and ask him whether he desires to put forward any reasons why the

the contractor that damages are to be enforced should be referred to the War Office before the appeal is dealt with, as Treasury sanction is necessary for the non-recovery of liquidated damages inflicted after appeal.

Claims under £5 are not enforced unless the breach of contract has caused increased cost to the public.

A monthly return of all liquidated damage claims dealt with by the Officer i/c Administration without reference to the War Office will be rendered to the War Office on a form similar to that shown in Appendix XVIII.

In all cases where the amount of liquidated damages assessed exceeds £100, the Officer i/c Administration will at once forward the claim to the War Office with a full statement of the circumstances. In such cases the Officer i/c Administration will inform the contractor that an amount sufficient to cover the claim has been provisionally deducted from his bill pending War Office decision, but no explanation should be asked for as in these cases any necessary correspondence with the contractor will be conducted by the War Office.

In all cases where liquidated damages arise, bills sufficient to cover the amount of liquidated damages assessed will be held by the Receiving Officer until a decision is given as to whether the claim is to be enforced or not. When a decision has been given, the final bill or bills will be endorsed as follows :—

- (a) If damages are remitted.—‘This bill is liable to a reduction for liquidated damages to the amount of £..... Remitted by. Authority.’ The entry will be initialled by the officer who certifies the bill.
- (b) If damages are enforced.—‘Liquidated damages enforced to the amount of £.....’ The amount will be deducted from the bill and the authority quoted.

To assist General Officers immediately after an occurrence, which may give rise to a heavy claim for compensation, by despatching an officer to take preliminary steps on the spot (*e.g.*, to obtain proofs of witnesses likely to be material to the case, plans, &c.), with a view either to preventing a claim being made or to enabling a satisfactory settlement to be effected.
- (f) To conduct periodical courses of instruction in the administration of Military Law.

- A.O. 254.** "To prevent any loss of time by reason of the use of
1923. tinfoil, the following procedure is recommended:—

Half charges.—5 tinfoil strips should be laid across
 the end of the cartridge opposite to the igniter in
 two sets (one of 2 strips and one of 3 strips) at
 right angles to each other.

The ends of the strips should then be passed
 through the strengthening band round the circum-
 ference of the cartridge and made fast with a half
 hitch or by winding round and round the strength-
 ening band until no ends project.

Full charges.—The same procedure should be adopted
 as with half charges, but the silk loops used instead
 of the strengthening band.

Tinfoil strips should be fixed to the cartridges during 'prepare for action'. A.O. 254
1923

When loading, care should be taken that the tinfoil strip end of the cartridge is placed next to the shell. continued.

By attaching the strips to the cartridge, no alteration in drill is necessary, nor is any delay in loading caused.

Percentage of hits probable, 75.

The standard time is calculated thus—

Round 1 should be fired at 0' 0" (on "Engage" being ordered).

Round 2 should be fired at 0' 23" (13" + 10" as above).

Round 3 should be fired at 0' 46".

Round 4 should be fired at 1' 9".

Army Orders.—June, 1923.

A.O. 254 †Rounds 5 and 6 should be fired at 1' 32" (verification
1923 by gunfire).

continued. Rounds 7 and 8 should be fired at 1' 40.5" (at interval given in Section XII).

‡Rounds 9 and 10 should be fired at 2' 03.5" (B.C. makes a correction as result of verifying series).
Rounds 11 and 12 should be fired at 2' 12" (Standard Time for the series).

$$\text{Decimal for time} = \frac{2' 12''}{3' 26''} = \frac{132}{206} = .64.$$

$$\text{Hits probable} = \frac{6 \times 75}{100} = 4.5.$$

$$\text{Decimal for accuracy} \frac{6}{4.5} = 1.33.$$

$$\text{Figure of effect} = .64 \times 1.33 = .853.$$

10. Paragraph 67. *Add* at end "Appendix I contains 'Notes on compiling Practice Reports'".

11. Paragraph 72. *Delete* last sentence.

12. Paragraph 81 (a), line 1. *Before* "number" insert "approximate".

13. Paragraph 119. *Add* at end—

A.O. 254. "The procedure recommended when Very pistols and
1923. lights are used is as follows:—

(a) A red light from the battery shall be interrogatory. It may have to be repeated from neighbouring high ground to enable all launches and piquet boats to see it.

(b) A red light from a piquet boat means danger, a green light 'all clear'".

14. Appendix I, line 4. *Insert* "*" after "(A.F. B 269)", and *add* footnote—

A.O. 254. "• With each copy of A.F. B 269 should be filed B.C.'s Initial
1923. Correction Form (A.F. B 82-12), Report on Missiles (A.F. G 899), and a curve drawn on squared paper, showing ranges given by the rangefinder employed each time a gun of the section was fired."

† If verification series be fired by 2 rounds battery fire—

Round 5 should be fired at 1' 32".

Round 6 should be fired at 1' 35".

Round 7 should be fired at 1' 40.5".

Round 8 should be fired at 1' 43.5".

The Standard Time is thus increased by 3".

‡ If the B.C. makes no correction to Range as a result of the verification series (the line correction should have been found prior to the verification series)—

Rounds 9 and 10 should be fired at 1' 53.5" 10' not allowed).

The Standard Time is thus reduced by 10"

2. Officers whose names are submitted for selection for these courses should normally have 3 years' commissioned service, and in ordinary circumstances subaltern officers only will be accepted.

3. Before attending a course, candidates must have *either*—

(a) a good knowledge of arithmetic, algebra and trigonometry, *i.e.* (i) arithmetic for applied purposes (fractions, decimals, square root, &c.) ; (ii) algebra up to and including easy quadratic equations ; (iii) simple geometry, including the use of π ;

or,

(b) the qualifications of a signaller as laid down in Section 108, Signal Training, Part I, 1919, and preferably hold a certificate of instruction in signalling.

Candidates possessing neither (a) nor (b) are unlikely to be able successfully to complete the course, and are therefore not to be recommended.

4. Applications, when called for in Army Council Instructions, will be submitted through the usual channels with the recommendation of the G.O.C.-in-C., Command, to the Secretary, The War Office.

A certificate will be forwarded with each application, signed by the Chief Signal Officer of the Command, or, where there is no Chief Signal Officer, by the Senior Signal Officer of the Command, or other officer deputed by the G.O.C.-in-C., to the effect that the candidate—

(a) has been personally interviewed and is considered suitable in all respects for service with the Royal Corps of Signals.

* Throughout this Army Order the term *seconded* should be taken as including "attached" in the case of corps from which officers are not seconded (e.g., Royal Engineers).

5. An entrance examination is held at the commencement of each qualifying course, and candidates are required to reach the necessary standard as laid down in either (a) or (b) of paragraph 3.

Officers who fail to reach this standard will be recommended to be returned to their units.

6. A qualifying course consists of three portions :—

(a) (i) Visual signalling.

(ii) Electricity and instruments.

(iii) The application of Signal Training, Part VIII, 1920, i.e., schemes of intercommunication in the field.

Duration, 17 weeks.

(b) Line construction. Duration, 8 weeks.

(c) Wireless telegraphy. Duration, 23 weeks.

7. At the end of the first portion of a course, it will be decided which of the officers shall complete the course with a view to sitting for the examination of the Institution of Electrical Engineers.

Those officers who are recommended to complete the course will then be seconded to the Royal Corps of Signals, with effect from 3 months after the commencement of the course, in accordance with Article 190 (m), Pay Warrant, 1922.

Officers who are not recommended to complete the course may, if they are considered suitable, be given the option of being seconded for a tour of duty with the Royal Corps of Signals, but *without* drawing signal pay, or of returning to their regiments.

The tour of duty with the Royal Corps of Signals, as laid down in Army Order 276 of 1920, will be considered as commencing from the date of seconding.

8. Officers who successfully complete a course and pass the examination of the Institution of Electrical Engineers will remain seconded to the Royal Corps of Signals for a tour of duty, and will be able to draw signal pay from the date of the examination.

9. Officers who complete a course, but fail to pass the examination, will, if they are considered suitable, be given the option of remaining seconded for

Initial contri-
butions.

1146. On appointment, an officer belonging to a regiment of cavalry or a battalion of infantry or to a corps not having a headquarters mess, will pay to the mess funds a contribution as may be decided by the C.O., but not exceeding £5, within 6 months of his appointment, one-fifth of the amount in the case of cavalry and infantry to be credited to the depot mess.

Where, however, the mess is not furnished at the public expense, an officer will pay a contribution as may be decided by the C.O., but not exceeding 30 days' pay of his rank, or, where the depot mess is furnished, not exceeding 24 days' pay of his rank.

If an officer is seconded or transferred to another unit before joining the unit to which he was first appointed, he will be required to pay contribution only to the unit which he joins.

1147. In the case of corps with headquarters messes sanctioned by the Army Council, an officer on appointment may be required to pay an initial contribution not exceeding £5 to the headquarters mess.

Initial contri-
bution

with head-
quarters
messes.

Where, however, the mess is not furnished at the public expense, an officer may be required to pay a contribution not exceeding 30 days' pay of his rank.

1148. No officer will be called upon to make any payment towards mess funds when promoted, except as laid down in para. 1149, and in the case of an unfurnished mess, other than a headquarters mess, where an officer will pay the difference between his old and his new pay over a period of not more than 30 days.

On promotion
in his
regiment.

1149. If an officer is transferred otherwise than compulsorily, or exchanges, or is promoted to another regiment or corps, he is chargeable with the contribution (as specified in para. 1146 or 1147) to his new regiment or corps.

On
transfer,
exchange
or promotion,
&c.

1150. Every officer will also pay a subscription to defray the ordinary expenses of the mess of which he is a member, at a rate to be fixed by the C.O., but not, in any circumstances, to exceed 10 days' pay of his rank yearly. This subscription will be charged from the date of appointment, and will be payable monthly in arrear. A married officer is liable to only one-half of the annual subscription when he does not regularly attend the mess as a dining member. An officer will be required to pay

Annual
subscriptions.

* The regulations in this sub-section are not applicable to the Household troops.

Army Orders.—July, 1923.

this subscription only to the mess of the unit with which he is serving and will not be charged with the subscription beyond the date on which he is struck off the strength of the unit. A.O. 269

continued.

Annual subscription—head-quarters messes.

1151. Headquarters messes sanctioned by the Army Council may, if and when necessary, levy an annual subscription up to 1 day's pay from every officer of the corps, whether a member of a mess or not. When this is enforced the subscription under para. 1150 for officers concerned will be limited to 9 days' pay. This subscription will be paid annually on 1st January of each year.

Subscriptions at regimental depots.

1152. Officers serving at depots, attached to a unit for 1 month and upwards, or attending a school of instruction for any period, will pay the appropriate portion of the mess subscription under paragraph 1150, to the depot, unit or school of instruction concerned. The O.C. unit to which such officer is attached will arrange to collect the appropriate amount.

On transfer, exchange, &c.

1153. When an officer is removed from one unit or corps to another by transfer, exchange, posting or promotion, his subscriptions will be due to his former unit or corps until the date of his actually quitting it. Subscriptions during the period which may intervene between an officer quitting one unit or corps and joining another will be due to the unit or corps to which he actually belongs, according to the date given in the *London Gazette*. The subscriptions will be paid according to the rank for which the officer is actually drawing pay.

Limits of contributions and subscriptions.

1154. The O.C. will prevent an undue accumulation of the mess fund, ensuring that cash balances are kept as low as possible consistent with solvency. He will fix the rates of contribution and subscriptions, which will never exceed the limits prescribed without the sanction of the Army Council.

Subscriptions for incidental expenses.

1155. The monthly charge for all incidental expenses not covered by the annual subscriptions of officers, will be decided by the C.O., but will not exceed 15s. in ordinary and 25s. in extraordinary circumstances. When the lesser sum is exceeded a satisfactory explanation of the excess will be furnished by the C.O. to his immediate superior officer. This subscription will be levied under the conditions of para. 1150.

Exemptions.

1156. An officer absent from duty on account of sickness for over 1 month will, after the first month, pay only one-half of the charges leviable under paras. 1150 and 1155.

Warrant officers, N.C.Os. and men who were <u>A.O. 271.</u> serving in the Territorial Army on 2nd March, 1922, 1923. will, for bounty purposes, be dealt with under the conditions of paras. 580B to 580F during the continuance of their then current engagements (including re-engagements signed by them not later than 2nd March, 1922) unless they have made written election, not later than 31st May, 1922, to be dealt with wholly under the conditions laid down in paras. 581A to 581D. 580B. A bounty of £1 will be paid to each warrant officer, N.C.O. or man of the Territorial Army who has been present for not less than 15 days at annual training in camp; time spent with advance and rear parties will not count towards the 15 days. The following conditions must also have been fulfilled :—
--	---

(a) *Drills.*

He must have performed the full number of drills required to be completed annually as laid down in Appendix VII.

Army Orders.—July, 1923.

A.O. 271

1923
continued.

(b) Musketry.

He must during the training year have fired Part I (Instructional Practices) and qualified in Part II (Standard Test) of the prescribed course.

For arms in which a musketry qualification is not required, he must pass such qualifying tests of efficiency as may be prescribed.

The bounty will be payable to a warrant officer, N.C.O. or man, otherwise eligible, who has commenced his annual training in camp and has signified his intention of remaining in camp for the full period required for earning the bounty, but, before completing the period, is admitted to hospital or is sent home in consequence of disability not brought about by his own action. In the event of his death the bounty will be payable to his widow or dependent relatives. Charges will be supported by the certificate of the C.O. in each case that the man had signified his intention of remaining in camp for the required period.

The bounty will not be allowed to men permitted to leave camp (otherwise than as laid down above) before completing the required period of training, but leave granted within the limits laid down in para. 397 will count towards the number of days required for earning the bounty. Days of absence, other than those on leave within the limits of para. 397, will not count for the purpose of earning bounty.

A warrant officer or N.C.O. who attends and qualifies at the Small Arms School, Hythe, in a 6 weeks' course in either (a) rifle or bayonet or (b) light gun will be considered as qualified in musketry and as having completed 15 days' training in camp for the year in which he so qualifies.

A warrant officer or N.C.O. who attends a 15 days' course for Territorial Army personnel at the Small Arms School, Hythe, and obtains a satisfactory report, will be considered as qualified in musketry for the year in which he attends the course.

If a warrant officer, N.C.O. or man has attended for not less than 15 days and qualified at a voluntary course of instruction applicable to the arm or branch of the service to which he belongs, the G.O.C.-in-C. may authorize such attendance to count, for purposes of bounty, as equivalent to 15 days' training in camp for the year in which he so qualifies.

580c. A bounty of 10s. will be paid to each warrant officer, N.C.O. or man in a unit in which a musketry qualification is required if he has fired the prescribed

course and qualified as in para. 580B (b) above. In A.O. 271

 quired, the same bounty will be paid to those who
 satisfy such alternative conditions of efficiency as may be
 prescribed.

580D. A payment at the rate of 1s. a drill will be made to a warrant officer, N.C.O. or man in respect of each drill performed by him up to a maximum of 50 drills in each training year.

580E. A further bounty of £1 will be paid to any warrant officer, N.C.O. or man (other than a recruit) who during the training year fulfils the conditions (including the 15 days' annual training in camp) laid down in para. 580B and, in addition, completes a total of not less than 50 drills.

580F. Payment of the amount so far earned will be made at the conclusion of the annual training in camp, and any further balance due will be paid at the end of the training year (*i.e.*, after 31st October). C.Os. may, however, authorize payment of any portion of the sum due in respect of drills performed before camp, or of the annual musketry course (or the prescribed alternative), as soon as it has been earned, and such advances will be taken into account when making the payments at the end of the camp training or of the training year.

7. *Insert new paragraphs—*

581. Warrant officers, N.C.Os. and men who enlist into or re-engage in the Territorial Army after 2nd March, 1922, and those who so elect in accordance with para. 580A, will be dealt with for bounty purposes under para. 581A to 581D. A.O. 271.
1923.

581A. A bounty of £2 10s. will be paid to each warrant officer, N.C.O. and man (other than a recruit) who has performed either :—

(a) 20 drills and 15 days' annual training in camp ;

or,

(b) 30 drills and 8 days' annual training in camp.

In the case of a recruit, a bounty of £2 will be paid if he has performed either :—

(c) The number of drills prescribed for a recruit in his arm of service and 15 days' annual training in camp ;

or,

(d) 10 drills in excess of the number prescribed for a recruit in his arm of service and 8 days' annual training in camp.

Army Orders.—July, 1923.

A.O. 271 For the purposes of bounties, the term "recruit"
1923 means a man enlisted within the training year, who is
continued. not entitled by former service to be regarded as a
 trained man on joining the Territorial Army.

A recruit who does not fulfil the conditions laid down above for a recruit before 1st November following the date of his enlistment, will not earn the recruit's bounty of £2; and will not be eligible to receive the trained man's bounty of £2 10s. in the following year unless he has completed his recruit's drills and musketry (or its prescribed alternative) in addition to the training laid down above for a trained man.

A recruit who has carried out the preliminary drills and musketry (or its prescribed alternative) laid down for recruits, but failed to attend annual training in camp during the training year in which he enlists, will, for bounty purposes, be regarded as a trained man in the following training year.

Time spent with advance and rear parties will not count towards the period of attendance at camp required to earn the bounty.

If a warrant officer, N.C.O. or man has attended for not less than 15 days and qualified at a voluntary course of instruction applicable to the arm or branch of the service to which he belongs, the G.O.C.-in-C. may authorize such attendance to count, for the purpose of bounty, as equivalent to 15 days' attendance at annual training in camp for the year in which he so qualifies.

The bounty will be payable to a warrant officer, N.C.O. or man, otherwise eligible, who has commenced his annual training in camp and has signified his intention of remaining in camp for the full period required for earning the bounty, but, before completing the period, is admitted to hospital or is sent home in consequence of disability not brought about by his own action. In the event of his death the bounty will be payable to his widow or dependent relatives. Charges will be supported by the certificate of the commanding officer in each case that the man had signified his intention of remaining in camp for the required period.

The bounty will not be allowed to men permitted to leave camp (otherwise than as laid down above) before completing the required period of training, but leave granted within the limits laid down in para. 397 will count towards the number of days required for earning the bounty. Days of absence, other than those on leave within the limits of para. 397, will not count for the purpose of earning bounty.

581B. A warrant officer, N.C.O. or man who has performed the obligatory number of drills for his arm of service, but is prevented by sickness, duly certified, from attending camp for the required period, will receive a bounty calculated at the rate of 6*d.* a drill up to the number prescribed in para. 581A for a trained man or a recruit, as the case may be. A.O. 271
1923
continued

581C. A bounty of 10*s.* will be paid to each warrant officer, N.C.O. or man in a unit in which a musketry qualification is required, if he has fired the prescribed course and qualified in the standard test. In arms in which a musketry qualification is not required, the same bounty will be paid to those who satisfy such alternative conditions of efficiency as may be prescribed.

A recruit who, in accordance with para. 316, has obtained permission from his C.O. to complete his preliminary training after 31st October following the date of his enlistment, will be eligible to earn the bounty of 10*s.* for musketry (or its prescribed alternative) as a recruit at any time within 12 months of his enlistment. He will also be eligible to earn a further bounty of 10*s.* as a trained man, provided that he qualifies in both musketry courses (or their prescribed alternatives), by 31st October next.

581D. The total bounty earned will ordinarily be issued in a single payment at the end of camp or of the training year (*i.e.*, after 31st October), but the O.C. a unit may authorize the bounty for musketry (or the approved alternative) to be paid as soon as it has been earned, in any case where he considers this course desirable.

581E. A bounty of £1 will be paid to boys, between the ages of 14 and 17 years, enlisted under para. 143H, subject generally to the conditions laid down in para. 581A, provided that they complete the following training requirements :—

- (a) Annual training in camp—15 days.
- (b) Drills—one half of the number laid down for men of the arm or branch of service to which they belong; to be completed before annual training in camp.

On reaching the age of 17 years, boys will come under the bounty conditions laid down in paras. 581A to 581C.

328

A.O. 274. 318. The circumstances in which a contractor may

 conditions of contract. Damages will only be enforced
 in very clear cases.

When a contractor becomes liable for liquidated
 damages the amount of damages assessed will at the

The previous sanction of the W.O. is required for the
 abandonment or reduction of a claim for liquidated
 damages if the liability of the contractor exceeds £100,
 or the breach of contract has caused increased cost to
 the public.

The O. i/c Adm. may remit or modify claims, which A.O. 274

 damages when the liability does not exceed £100 and the *continued.*
 breach of contract has not caused increased cost, if he is
 satisfied that there is insufficient ground for enforcement.
 In such cases the O. i/c Adm. will inform the contractor
 of his liability incurred in respect of liquidated damages,
 and ask him whether he desires to put forward any
 reasons why the claim should not be enforced. Full
 consideration will be given to any extenuating circum-
 stances urged by the contractor. As special sanction
 is necessary for the non-recovery of liquidated damages
 inflicted after appeal, cases of appeal after the notifica-
 tion to the contractor that damages are to be enforced
 will be referred to the W.O. before the appeal is dealt
 with.

Claims under £5 will not be enforced unless the breach
 of contract has caused increased cost to the public.

A monthly return of all liquidated damage claims
 dealt with by O. i/c Adm. without reference to the W.O.
 will be rendered to the W.O. on a form similar to that
 shown in Appendix XVIII, Regulations for Supply,
 Transport, and Barrack Services.

In all cases where the amount of liquidated damages
 assessed exceeds £100, the O. i/c Adm. will at once
 forward the claim to the W.O. with a full statement of
 the circumstances. In such cases the O. i/c Adm. will
 inform the contractor that an amount sufficient to cover
 the claim has been provisionally deducted from his bill
 pending W.O. decision, but no explanation should be
 asked for, as in these cases any necessary correspondence
 with the contractor will be conducted by the W.O.

In all cases where liquidated damages arise, bills
 sufficient to cover the amount of liquidated damages
 assessed will be held by the Receiving Officer, until a
 decision is given as to whether or not the claim is to be
 enforced. When a decision has been given, the final
 bill or bills will be endorsed as follows :—

- (a) If damages are remitted—"This bill is liable to a
 deduction for liquidated damages to the amount
 of £..... Remitted by.....
 (Authority)." The entry will be initialled by
 the officer who certified the bill.
- (b) If damages are enforced—"Liquidated damages
 enforced to the amount of £....." The
 amount will be deducted from the bill and the
 authority quoted.

1923 319A. The O. i/c Adm. is authorized, with the con-

 been appointed, to admit claims of contractors for
 compensation for loss due to departure from the terms
 of a contract if the amount is less than £40. (*See also*

A.O. 274. 400. In Divisions where day labour is employed (*see*

 certain jobs will be abstracted periodically and the cost
 of the job compared with contract prices in order that
 the D.O. (who will select the jobs for comparison) may
 be satisfied that his day labour is being economically
 administered. Care must be taken that the clerical
 labour involved does not outweigh the advantages
 gained by such abstracting.

"In addition to truck notes, carrier's notes (A.F. G 980) will be prepared to show the quantity of each kind of package, bundle, &c., despatched. In the case of bundles, the number contained in each must be inserted against the entry in the body of the carrier's note.

It is important that carrier's notes should be carefully prepared in order that claims against railway companies may be rendered possible in the event of stores being lost in transit. The copy of the ordnance carrier's notes, on which the stores were received, should be taken as a guide."

4. *For paragraph 136C substitute—*

A.O. 276,

"136C. When stores are received, the officer or others receiving them will, before giving a receipt to the carrier, ascertain that the various packages are in good order and condition, and that sealing labels, where used, are not broken; but, whether in external good order or not, all packages must be immediately weighed and compared with the weight marked on the outside.

Should the weights differ, or packages appear to have been tampered with or damaged in transit, the contents will be examined and compared, in the presence of the carrier's representative, with the packing note which each package should contain. Any damage or deficiency must be recorded on the carrier's note or bill of lading, and confirmed in writing on A.F. G 978.

Where it is not possible to comply with these instructions in full, the receipt given will be qualified by the term 'Unexamined.'

136D. The stores will be examined as soon as possible to determine whether they agree with the particulars in the vouchers, and a written report of any deficiency or damage made to the carrier and consignor within three days; unless this is done the carriers will not accept liability. Subsequent investigation and recovery of the value of the loss or damage from the carriers will be made through the R.A.S.C. officer i.e. transport of the sub-district. In reporting any discrepancy the fullest information will be given, all numbers and weights and any marks upon the packages giving evidence of their having been tampered with being carefully recorded. The packages, with their notes and all wrappers, will be retained until the inquiry closes. Remarks regarding

discrepancies will not be made on the vouchers, but will be reported on a separate paper. When there is no discrepancy the vouchers will be completed in right-hand top corners, and the duplicate copy signed and returned to the O.O. at once. Paragraph 705A (c). *Add* new sub-paragraph—

(v) Credits for stores returned, representing fittings and materials recovered from buildings under alteration or repair, normally go to maintenance allotments. They may, however, be given to Part I or Part II allotments when they have been foreseen and allowed for in the estimate.

It is clearly unjustifiable to strip surplus huts, etc., of their fittings and to return them to store, in order to obtain credit for them and consequently additional funds for constructional expenditure.

The disposal of surplus property held on the "fixed assets account" is governed by the regulations regarding sales (*see* para. 620, as amended by Army Order 76 of 1923).

Paragraph 708A (c) (i).—

Lines 4 and 5. *Delete* "(The cost of military mechanists is normally chargeable to Head I.)"

Add at end—

A.O. 354.
1923.

"C.R.Es., D.Os., and Assistant D.Os. have other responsibilities unconnected with constructional services—such as their identifiable military duties, the administration of a separately costed establishment (*e.g.*, an electricity supply station), work in connection with W.D. lands, etc.—which occupy a portion of their time. C.R.Es. will therefore agree with the local accountant officer as regards the percentage of the time of all such officers under their orders which is properly debitable to the General Charges Account, and the latter is to be built up on such agreed percentages.

In the case of A.Is.R.E.M. and Is.W. (and of all other subordinates) the above conditions do not apply, and the full cost is to be charged.

The cost of mechanists employed with units, at schools, or on other duties not connected with Engineer Services, is not to be included in the General Charges Account."

concerned, will form the guide for all training. (See A.O. 357

1923

The attention of units of the Junior Division is *continued*, also directed to Appendix I of the Instructions for the Annual Camps of the Junior Division, which lays down in detail the standard of training to be aimed at before reaching camp. All contingents should be sufficiently trained to be able to commence with platoon training.

(2) Further instructions for musketry training of cavalry, engineer and infantry units are contained in paragraphs 60, 61 and 62.

(3) Signalling, in other than signal service units, is a voluntary subject, and it is undesirable that time should be devoted to it at the expense of more important work. For the benefit of contingents which take up signalling, classification tests are laid down in Section 108, Signal Training, Part I, 1919, as amended by Army Order 163 of 1923.

(4) Physical training is usually a school subject, but contingents of the Officers Training Corps should lend their assistance in every way.
